## Calling of the Roll

## Announcements

## Old Business

- Sport and Wellness Specialist Concentration in BS HHP
  - Previous proposal moved HHP 4300 (Introduction to Stress Management) and 4080 (Human Sexuality) from required to Group 2 Electives under a pick 3 option. Due to some unforeseen consequences, the department is now seeking to undo this change and move HHP 4300 and 4080 to required and change Group 2 Electives to a complete one from.
  
- Survey or Organizational Administration and Supervision Concentration in BS General Studies
  - The BUS 1000-4999 was inadvertently listed in the Complete 12 hours from instead of Complete 24 hours from. This is to serve as notification that this will be swapped so as to not interfere with the AACSB accreditation.

## Action Agenda Items

### General Education Core Additions

1. CHEM 1050/1051 – Chemistry for Everyone with lab
  - A course designed for non-science majors. Topics may include chemistry in social media, kitchen chemistry, forensic science, medicines, poisons, environmental chemistry, nutrition, debunking, pseudoscience and current hot topics in chemistry.
2. LING 2020 - Dialects of English
  - As elaborated in the syllabus (see subsections of the semester overview on p. 6), the course relates to skills in: linguistics (dialect differences occur at the level of sounds, words, sentences, and meanings), geography (e.g. New Yorkers have a sound that is distinct from Tennesseans; or where Germans settled in the U.S., there are different grammar constructions from where the Scots-Irish settled), sociology (there are dialect difference based on ethnicity, socioeconomic status, level of education, gender, etc.), and history (older speakers do not speak similarly to younger speakers; or dialect features like “a comin” are actually retentions from Middle English, which used ‘on coming’). In short, the skills are extraordinarily broad and interdisciplinary, even though the topic of dialects may seem narrow to some. Dialects simply offer a nice way to frame the broad array of content that pertains to the behavioral science core.
  - Whether y’all drink pops or sodas, or reckon that indubitably is an every-day word, the way we speak reveals an awful lot about us: our home base, educational background, social affiliations, and much more! This course explores as a social science such details in English varieties spoken across the globe.
