## **SDSS Skyserver Scavenger Hunt**

---

The purpose of this lab is to become familiar with using the SDSS website and the Navigation Tools.

To get started on this lab, first go to the link below and go through the mini tutorial that explains how to look for certain objects by using Navigation Tool.

<http://cas.sdss.org/dr6/en/proj/basic/scavenger/>

Now you should be ready to begin the scavenger hunt. The object sheet, "scavenger.pdf " should be printed from this site or a worksheet can be printed from the site above. In order to receive full credit all the information for each of the objects is required.
