

Dear Prospective Student:

Before requesting an unconditional letter of acceptance and plan for completion from me, please be sure that you have read the admission requirements found on the SON website, and that you have, to the best of your ability, filled in the BSN CORE curriculum plan that is found on my webpage: www.apsu.edu/cochenerd Please include this plan with your email to me.

In order to provide you with the necessary inclusions for your AMEDD packet I will need the following:

- a. Unofficial transcripts: these may be faxed to 931.221.7595 or emailed as an attachment to cochenerd@apsu.edu (Official transcripts must be sent to the university Registrar's Office at the time of application.) Please be advised that the School of Nursing will accept credit for **only** Biology 2010/2011 based on DANTES/CLEP/MILITARY ARTS TRANSCRIPT. You must take both lecture and lab classes for Bio 2020/2021 and Bio 2300/2311.
- b. Semester you plan to enter the nursing program (i.e. the semester at which point in time you will have no remaining CORE requirements or deficiencies)
- c. Plan for completion of CORE: your plan to complete your remaining CORE requirements (semester and date)
- d. Your social security number and rank

If, based on your transcripts, I can determine that you would be a competitive applicant (at least a 3.4 or better) then I will happily write a conditional letter of acceptance and determine your plan for completion of the BSN. Please be advised that due to summer clinical size, restrictions may be placed on number of AMEDD positions. Both APSU's time frame for completion and tuition fall within the military framework.

Best Regards,

*Mrs. Debbie Cochener, Associate Professor
Administrative Specialist, School of Nursing
Austin Peay State University*
