

Space Allocation Committee Meeting  
October 8, 2008 @ 2:00 p.m.  
UC 213

Minutes

Attendees: Glass, Gant, Robinson, Westerman, Bryant, Denton and Walton (minutes)

Absent: Kean and King

Guest: Wrigley

- Old business:
  - Hybrid classes – Telaina Wrigley
    - How do students see a class is hybrid? Noted on the schedule. These meet one day a week. Saves class space. Does a hybrid need to be Tues. and Thurs. only? If Mon. and Wed. offered more it would get to the point no one would be here on Fri. because most all would want a class of this type. MWF type class suggests Wed. online only that is all that would show on the schedule. Commitment from Faculty is needed to implement. Glass pointed out some classes are not appropriate in this format, in the class room attention is needed 100%. Denton suggested we put the two systems side by side for comparison. Telaina to contact the institution currently using this system to see how it works.

- Home Court Apartments
  - Turned over to Housing - Greek organizations to rent - renovations are complete
  
- Space Requests:
  - Affirmative Action – handout (floor plans of Browning)
    - See request attached
      - A few options were discussed. All options are pending construction of McReynolds
      - Chair request to table the request till construction begins on McReynolds. At this time space availability will be clearer.
        - Glass motioned to table
        - Denton seconded
          - Committee approved

Next meeting will be on an “as needed” basis

Meeting adjourned at 2:40 p.m.
