

To the Dickson Herald:

I would encourage you to do a feature story on a young man who lives in Vanleer, Chris King. Chris will be a junior at Creek Wood High School this fall and was one of the two Grand Prize winners at the Middle TN Science and Engineering Fair (MTSEF) held in March at Austin Peay State University. I don't believe I have seen anything about him in the Herald. Among his top awards at the MTSEF were:

- 1st place award in the Engineering category - \$100
- 1st place award from the Dupont Corporation - \$75
- Best Engineering project from Sigma Xi - \$100
- 1st award from the TN Society of Professional Engineers - \$50

His Grand Prize award gave him a one year tuition free scholarship to APSU and a week long all expense paid trip to the International Science and Engineering Fair (ISEF) in Albuquerque, New Mexico in May where he exhibited his project and met students from 50 countries and territories.

As director of the fair at APSU, I had the privilege to accompany Chris to the ISEF. He is an outstanding young man on many levels and I would love to see some recognition for him in our paper. If you could interview him you would hear about his workshop where he constructed his project and be impressed by his practical and theoretical knowledge in electronics. His project, "Wireless Power Transmission Through Electromagnetic Resonance" has great applications in today's world and is a hot topic for researchers. More information on the MTSEF and ISEF (awards lists, pictures, etc.) can be found at my web site, www.apsu.edu/mtsef.

His contact info is:

Chris King
E-mail: jck2jck2@bellsouth.net
Phone: 615-724-0403
Address: 4514 Highway 49W
Vanleer, TN 37181

Feel free to contact me at home. I have attached a picture of Chris and his project.

Dr. Ron Robertson
Associate Professor of Chemistry
Director of Middle TN Science and Engineering Fair
