

Statewide Contracts

The State of Tennessee, Purchasing Division has established this listing of statewide contracts for use by all State of Tennessee agencies. Vendors were given the option under a cooperative agreement to allow Tennessee local governmental entities to utilize these contracts under the same pricing and terms and conditions as contracted by the State (Tennessee Code Annotated 12-3-1001). The majority of these vendors have elected to allow local government entities to purchase directly from these contracts. The statewide contract will include the statement "Contract extended to Local Governments & State Agencies" in the contract detail where cooperative purchasing is allowed.

All specifications, terms and conditions in the Invitation to Bid are a part of the contract award. Although the Purchasing Division has attempted to include the applicable specifications, terms and conditions for the statewide contract, this listing may not include the complete listing of specifications, terms and conditions. Should you have any questions, please contact the contract administrator or buyer supervisor listed in the contract.

The State of Tennessee, Department of General Services is committed to providing extraordinary service to each of our customers. The State Purchasing department encourages all **local government entities** within the state to take advantage of all contract pricing open to them.
