

SCHOOL OF NURSING

Dear Registered Nurse student,

*Thank you for inquiring about the BSN completion track at APSU! The nursing components of the program are **online** and can be completed in three semesters if you are full time and have completed the entire pre nursing core. There are three courses that require a clinical component but clinical is often arranged individually. Included in this letter are the pre nursing and general education core that must be completed plus the BSN courses.*

The best time to begin the nursing component is in the summer semester but other arrangements can be made.

I will be your advisor and will be glad to answer questions. Please send me questions you have and copies of your transcripts to see what core you still may need. (These do not have to be official transcripts.)

*You may send them: attention Danielle White
