University Housing Approved by \_\_\_\_\_

Approval date \_\_\_\_\_

## Student Disability Resource Center

We have a formal process that must be met before an animal is approved. The steps are listed below.

1. A qualified, professional provider such as an M.D. must provide documentation on **original letterhead** with an original signature. The letter must state all of the following:
  - a. The diagnosis and functional limitations as to why an animal is needed.
  - b. The job or service the animal provides must be listed and how it accommodates the disability.
  - c. The type of animal (**dog or cat**) **must be listed** on the documentation letter.
2. All of the above is required to be in place and an intake interview completed with SDRC prior to bringing the animal to campus.
3. The student application for services with our office should be completed along with your documentation at the following link:  
<https://teton.accessiblelearning.com/APSU/ApplicationStudent.aspx>
4. Housing will schedule a meeting with you to discuss the handling and health of the animal as well as your responsibilities.
  - a. There is an additional form for housing that will be signed off on by our office.

At this time we **do not accept** registry documentation. Please contact our office if you have any questions.
