Old Business

Action Item:

1. Modify Curriculum for BA and BS in Communication concentrations: Public Relations and Corporate Communication to reflect COMM 2060 as required instead of COMM 2050.

Dr. Robert Baron served as a representative from Department of Communications. Jasmine O'Brien explained that the number change is due to a previously used number. APSU cannot reuse previously used numbers.

Motion approved, unanimous vote.

2. Degree Components
 - Added Doctoral program information.
 - SACSCOC policy information updated to reflect new SACSCOC policy number.
 - Certificate length and approval information added to requirements information.

Jasmine O'Brien explained that as a result of APSU's Level Change to offer a doctoral program, the University has added a section on doctoral program credit hour requirements, shown on page 8.

Motion approved, unanimous vote.

Dr. Nicole Knickmeyer explained that these are very small modifications to the prerequisite of program admission.

Motion approved, unanimous vote.

School of Nursing

Undergraduate Program Modification – Final approval required from Provost/VP Academic Affairs

- Updated the process of declaring nursing as a major for pre-licensure students.
- This curriculum will include general education core, Nursing pre-requisites and major requirements offered by the School of Nursing.

Jasmine O'Brien explained that students cannot get financial aid depending on how they declare nursing as a major. Dr. Gandy explained that our practice has been to count all pre-admitted students as nursing majors even if they have not been admitted to the major yet. Instead the pre-nursing students will declare the BS General Studies major until they are admitted into the nursing after three semesters. Dr. McGruder asked what has happened to students who did not get admitted to nursing major. In the past, the students had to find a new major. However with today's proposal, students will always have a major, even if they don't get admitted to switch to the nursing program.

Motion approved, unanimous vote.

College of Science, Technology, Engineering and Mathematics

Department of Allied Health Sciences

Undergraduate Program Modification – finale approval required from Provost/VP Academic Affairs

84. Medical Laboratory Science, B.S.M.L.S.

Implementation Fall 2019

- MTEC 3910 and 3911 will become required courses for the program.
- Raise the GPA from 2.50 to 2.75 for program entrance.
- MTEC 4930 will become a variable hour course.
- Add the MTEC 4930 as a 2 SCH hour course for students seeking the Pre-Professional concentration, making their total required hours to earn a degree 125.

Dr. Perry Scanlan explained that in the past the academic department made substitutions. However, VA and Financial Aid will only pay for required courses, therefore the department is specifying course requirements. The academic department also proposes to raise the GPA. Dr. McGruder asked why the department wants to raise the admission requirement GPA. Dr. Scanlan explained that historically students with less than 2.75 have not been admitted yet students continue to re-apply, thinking that they will get admitted eventually. Dr. Scanlan also explained that the program was previously 125 credit hours, and the proposal today will return the program to that same length.

Motion approved, unanimous vote.

Department of Computer Science and Information Systems

Graduate Revise Course – Final approval required from Provost/VP Academic Affairs

113. ENGT 5270 – Graduate Capstone Project Implementation Spring 2019
- Change from a 3 credit hour course to a 1 credit hour course.
 - Added two additional one credit hour Capstone Project courses in separate proposals.
 - Course was approved by Provost for implementation for the Fall as a one-time course offering.

Dr. John Blake explained that a single three credit hour course did not provide enough time for students to complete the project in one term, and the department needed to assign a lot of Incomplete grades. This proposal allows the project to be structured over more than one term and thus not need an “in progress” grade unless the student has not completed the project in the third course. Telaina Wrigley asked about the grading. It will be structured so that the student will earn a grade for capstone I and capstone II. This will reduce the likelihood of incomplete grades. Telaina Wrigley mentioned the impact on financial aid. Dr. Gandy also asked questions for clarification.

Motion approved, unanimous vote.

Graduate New Course – Final approval required from Provost/VP Academic Affairs

114. ENGT 5271 – Graduate Capstone Project II Implementation Spring 2019
- Approved by Provost for one time course offerings for Fall 2018 while the proposal routed through Curriculog.
115. ENGT 5272 – Graduate Capstone Project III Implementation Spring 2019

- Approved by Provost for one time course offerings for Fall 2018 while the proposal routed through Curriculog.

Dr. John Blake explained that these are the other two new one-credit hour courses related to item #113.

Motion approved, unanimous vote.

Item #121 is a content update, explained by Dr. Prentice Chandler.

Motion approved, unanimous vote.

Item #129 is a name change, because the state changed the licensure range band. The name change will be easier for students to recognize and understand.

Motion approved, unanimous vote.

Items #120-137 except #121 and #129. Dr. Prentice Chandler explained that this will reduce the amount of permits needed to allow students to register. In the past if students had not completed the appropriate prerequisite, the department issued a permit.

Motion approved, unanimous vote.
