Old Business

- The Health Care Management concentration within the BS Health and Human Performance recently had a curricular modification approved. When attempting to build the course into Banner it was noticed that the LDSP 3000, elective course, had been terminated by the department. Approval is needed to simply remove this elective from the elective options in Health Care Management.

Jasmine O'Brien, Curriculum Coordinator, explained the oversight.
Motion passed unanimously.

New Business

Academic Affairs:

- The meetings scheduled for the second Monday of each month, will fall on Fall Break and Veterans Day in October and November of 2019. We are requesting a vote on which date these meetings should be moved to.

The UCC members discussed the need to allow more flexibility and time for college curriculum committees to move proposals to the UCC, and therefore it would be better to move these two meeting dates later in the calendar (from the second Monday to the third Monday of October and November).
Motion passed unanimously.

|---|--------------------------|
| 1. BS General Studies: Concentration Education (Non-Licensure) | Implementation Fall 2019 |
| <ul style="list-style-type: none">• Creating a concentration from the current specialization option.• Clarifying the course offerings for the concentration. | |
| 2. BS General Studies: Concentration Health | Implementation Fall 2019 |

- Creating a concentration from the current specialization option.
- Clarifying the course offerings for the concentration.

3. BS General Studies: Concentration Organizational Administration and Supervision

Implementation Fall 2019

- Creating a concentration from the current specialization option.
- Adjusting the course requirements to ensure it does not affect the College Business accreditation process.

4. BS General Studies: Concentration Social and Behavioral Sciences

Implementation Fall 2019

- Creating a concentration from the current specialization option.
- Clarifying the course offerings for the concentration.

Items #1-4 linked.

Dr. Allen Barger, Center for Teaching and Learning, explained the benefits of developing concentrations in BS General Studies. Specifying concentrations and courses within each concentration, would work better with DegreeWorks and would reduce the number of course substitutions currently being processed with BS General Studies students. One UCC committee member asked how the courses were identified. The committee member expressed concern that some of the courses are restricted to students in a specific major, such BSMLS Medical Laboratory Science (and BS General Studies students would not be allowed to take the courses). Dr. Barger explained that if a student dropped out of the BSMSL program, the student could use those MSL courses toward the completion of the BS General Studies program. The UCC committee member indicated his understanding and support of this idea. A typo on the Health side by side was noticed and corrected on 7.18.2019. The BIOL 2030/2031 should be 2300/2301.

Motion passed unanimously.

| 9. AAST 4610 – African American Humor and Culture | Implementation Fall 2019 |

Items #5-9 linked.

Dr. Dwonna Goldstone explained the proposals. Some of the courses will be cross-listed with Honors and others with Communications. One UCC committee member asked if AAST 2220 is a new course, and Dr. Goldstone confirmed. The same UCC committee member asked if it is a race course. Dr. Goldstone said that it is about race and ethnicity.

#17-#27 linked together.

Dr. Sienkiewicz explained the goal to offer a BM Music with a concentration in Music Therapy.

She explained the value of music therapy and emphasized the goal of starting with an introduction course to increase student interest. This will allow time to build the program next year and hire a full-time faculty member. She explained that Vanderbilt University offers this program. Vanderbilt hired an additional faculty member three years after launching the program, due to the growth of the program.

Motion passed unanimously.

Undergraduate Program Modification – Final approval required from Provost/VP Academic Affairs

28. Arts Entrepreneurship Minor	Implementation Fall 2019
<ul style="list-style-type: none"> • Addition of courses recently created and prior courses that fit the purpose of the minor. • Delete courses which have proved problematic for enrollment. • Change the ratio of required and elective courses. 	

Dr. Sienkiewicz explained that the music field needs to be collaborative and entrepreneurial. The minor is currently limiting to any majors. The college wants to increase the diversity of courses in the minor and delete courses that have experienced low enrollment. This proposal really is shifting the coursework, some becomes electives in the minor, some electives become required in the minor.

Motion passed unanimously.

29. BS Music: Concentration Music Therapy	Implementation Fall 2020
<ul style="list-style-type: none"> • Create a new concentration in Music Therapy. • The Music Therapy concentration will prepare students to sit for the National Board Certification Exam in Musical Therapy to enter the field as a Board Certified Music Therapist. 	

This should say BM Music, not BS Music.
