

Graduate Assistant – Department of Mathematics & Statistics
20-Hour Per Week Graduate Assistantship
Position Classification: GTA

General Description

The Department of Mathematics and Statistics has a limited number of graduate teaching assistantships (GTAs) available. These awards are made on case-by-case bases, and contingent upon applicants' academic credentials and departmental need.

Primary Duties and Responsibilities

Responsibilities will vary, but typically include any, all, or more than the following: running recitation sessions, grading homework and projects, holding office hours, leading discussion groups face-to-face and/or online, proctoring quizzes and exams, and recording grades. Course assignments and duties will be made commensurate with departmental need, applicants' academic credentials, and when possible, applicants' choices.

Essential Functions

Successful applicants must be punctual and otherwise dependable.

Qualifications

The department will consider graduate students from any discipline, but successful applicants must demonstrate knowledge of the course subjects with which they will assist.
