SPRING 2024

FACULTY LEARNING COMMUNITIES

A Faculty Learning Community (FLC) is a small group of faculty and staff working together to increase their knowledge and/or skills on a topic of mutual interest. An FLC provides the structure and support for this group to discuss, share, and encourage one another to reach their full professional potential. FLCs are usually led by 1-2 facilitators and are made up of 8-10 participants. Some successful past FLCs at APSU include Equitable Course Based Assessments FLC, AOQF Pilots, and Improving Students' Writing FLC.

We are interested in FLCs that support APSU's new strategic plan. Here are some example topic areas you may consider for a FLC:

- Teaching/Observations Exchange
- Scholarly Teaching Approaches
- Advances in Advising
- Emerging Trends & Topics

Note your
interest via
[this form](#).

Benefits?

Besides the inherent benefit of collaborating with a group of interdisciplinary faculty and staff to respond to an identified opportunity or challenge, facilitators and participants will earn CAFE Perks points (which can be converted into PD funds) along with possible funding support for travel to a conference should the FLC result in an accepted presentation.

If you are interested in participating and/or facilitating a FLC, please fill out the [form](#).
