Good morning,

It looks like you both agree that Gary Covella is a better candidate for MHA 5640. Would you prefer if the three of us interview him (or just talk to him) next week? If not, I am more than happy to start the paperwork and get him assigned to the class.

Tim

Tim,

Both appear they could teach the course we need, but I lean toward Gary Covella, due to experience with APSU before and the breadth of experience (which both have). My bottom line is I would be happy to work with either of them. If we do a Zoom interview, that might help. Between CAHME and moving, I am going to have difficulty finding a time (earlier in the week is better -Monday or Tuesday).

Hi, Blake,

Any feedback on the two possible adjuncts for HHP 5640?

Thanks,
Tim

He should be ok for temporary. If looking for more permanent instructor would look for both SHRM (Society of Human Resources Professionals) credentials and connection, not mentioned in his CV. As you suggest, would also prefer for some experience in healthcare. but HR is pretty generic. Like accounting and finance, HR has common principles applied to any area, and he likely has that.

It appears that Eric may have more healthcare-like HR experience. Does that matter? I am not sure why he has not worked with them.

Gary Covella appears to be the better fit of the two, for 5640. Maybe this is known, but one question for APSU Business Dept is why he has not done APSU work with them since 2017, or how that went.

Good morning,

Please review the attached CV's of Eric Morrison and Gary Covella. They are both able to teach MHA 5640. I have also attached the email correspondence where they provide more information.

Let me know who you want to move forward with or if you want to meet via Zoom to discuss. If possible, please send me your votes by next Friday.

Thanks,
Tim
