

ILE PARTNERS with Austin Peay State University MHA Program 2023

1) COKER GROUP in Brentwood, TN. Took 2 Students and this is their First Year/Contact Brandt Jewell

Students:

Katherine Anderson: She was on top of things quick, caught on quick and was allowed to follow senior consultants to meetings on ongoing projects. Given important deliverables and Brandt Jewell, her direct contact expressed his thrill with her and definitely wants to be back in the program and would consider hiring Katherine or others like her.

Kyra Wilder: Per Brandt, it took Kyra longer to get started, as his initial plan was to have Katherine and Kyra to work together. Brandt backed off and mentored Kyra and she grew greatly from this type of attention and experience. She worked a lot on analytics for an ongoing project for them and in the end, Brandt felt she had almost caught up with Katherine in her comprehension of what The Coker Group does.

2) Clarksville Medical Group Management Association in Clarksville, TN:

Student: Riley Walsh

CMGMA Contact Greg Smith & Blake Hendrickson

Riley could not have done a better job for us. He created social media channels, set up a LinkedIn Company Page, sent invitations out and helped us grow our membership. He also took the old membership list and went through it and updated and sent invitations to upcoming meetings with a QR code for ease of registration. Although his time is up, he has felt the need to continue to help. Since Riley joined us in the ILE our monthly meetings went from 6 to 22 to 31 in August!
