Collective Leadership 2

Add dates and restrictions...

Here you will find materials for Collective Leadership research. At the conclusion of the course you will submit a very brief (5-6 sources) Annotated Bibliography highlighting research on Collective Leadership. You will also be asked to submit one more reflection of your leadership philosophy/approach - from the lens of collective/distributive leadership as you understand it.

Under "Collective Leadership Materials" is a link to a special edition journal. This link will also be provided in the description fo the Annotated Bibliography assignment. If you are not logged onto the APSU campus network, this link will not work. You will need to access it by logging into the APSU library and doing a periodicals search:

Search: Human Relations - under the search periodicals link

Once there you will see several options. Scroll down until you see the link with the collection title of: Sage Journals Premier 2022. It is one of the last ones.

Click on the journal title: Human Relations

Once there you will see a list of years and issues. Click on the year 2020 and scroll under the issue 73 until you see Volume 4: Special Edition.

Click on that issue and follow the prompts for the assignment.
