

How to Access the New Enrollment Dashboards in Argos

I am new to Argos, how do I login?

1. Do you need an Argos account?

Email govstech@apsu.edu and in the subject line put “Argos Account Request.”

Banner Resources

Use the links options below to access Banner or Argos resources.

3. Your username and password will be the same as your APSU email.

4. There are two options. We recommend the full version Argos. The Argos Web Viewer may be used, but it is a lite version and is not fully functional.

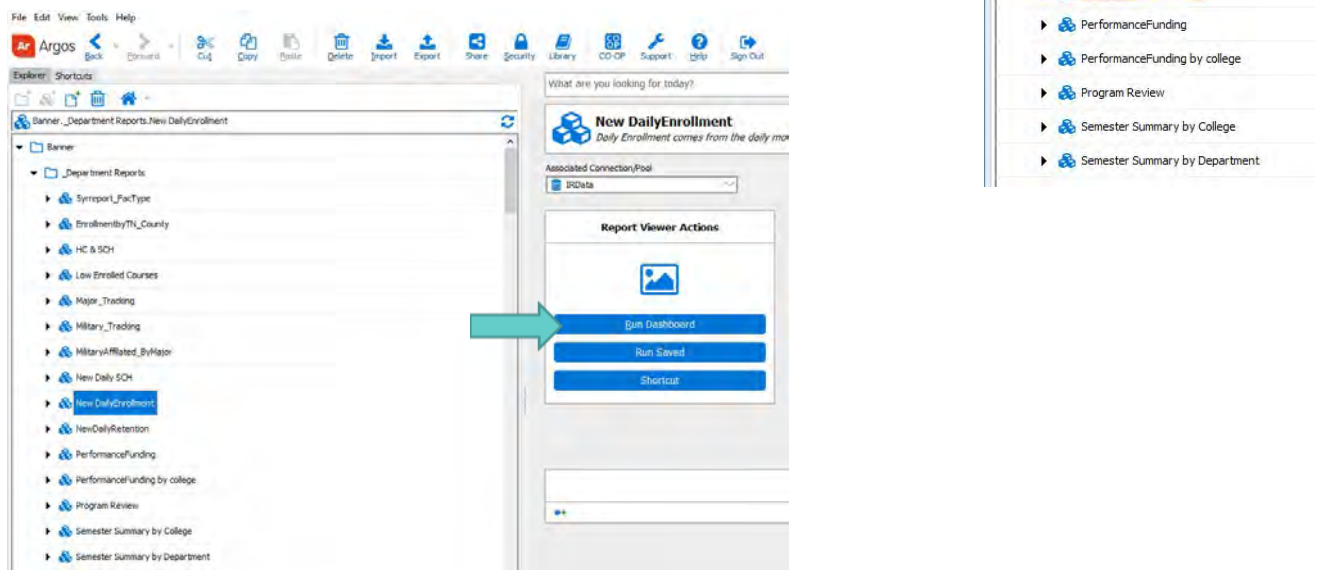

5. Choose Open Evisions Application Launcher on the pop-up window.

Where can I find the new enrollment reports and run them?

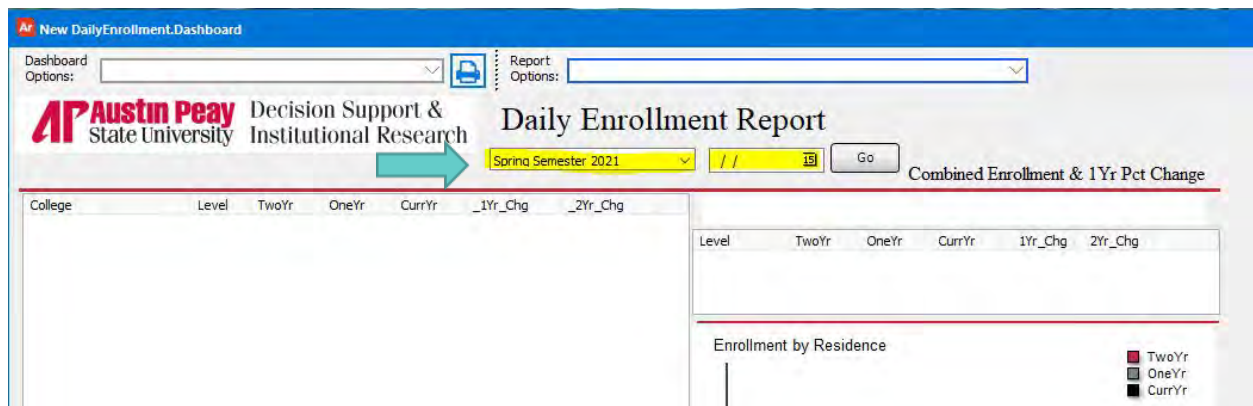

In Argos, the new enrollment reports are located in the Department Reports folder. Find the report you need to run and click on it.

- New DailyEnrollment
- New Daily SCH
- New DailyRetention

Then click on Run Dashboard.

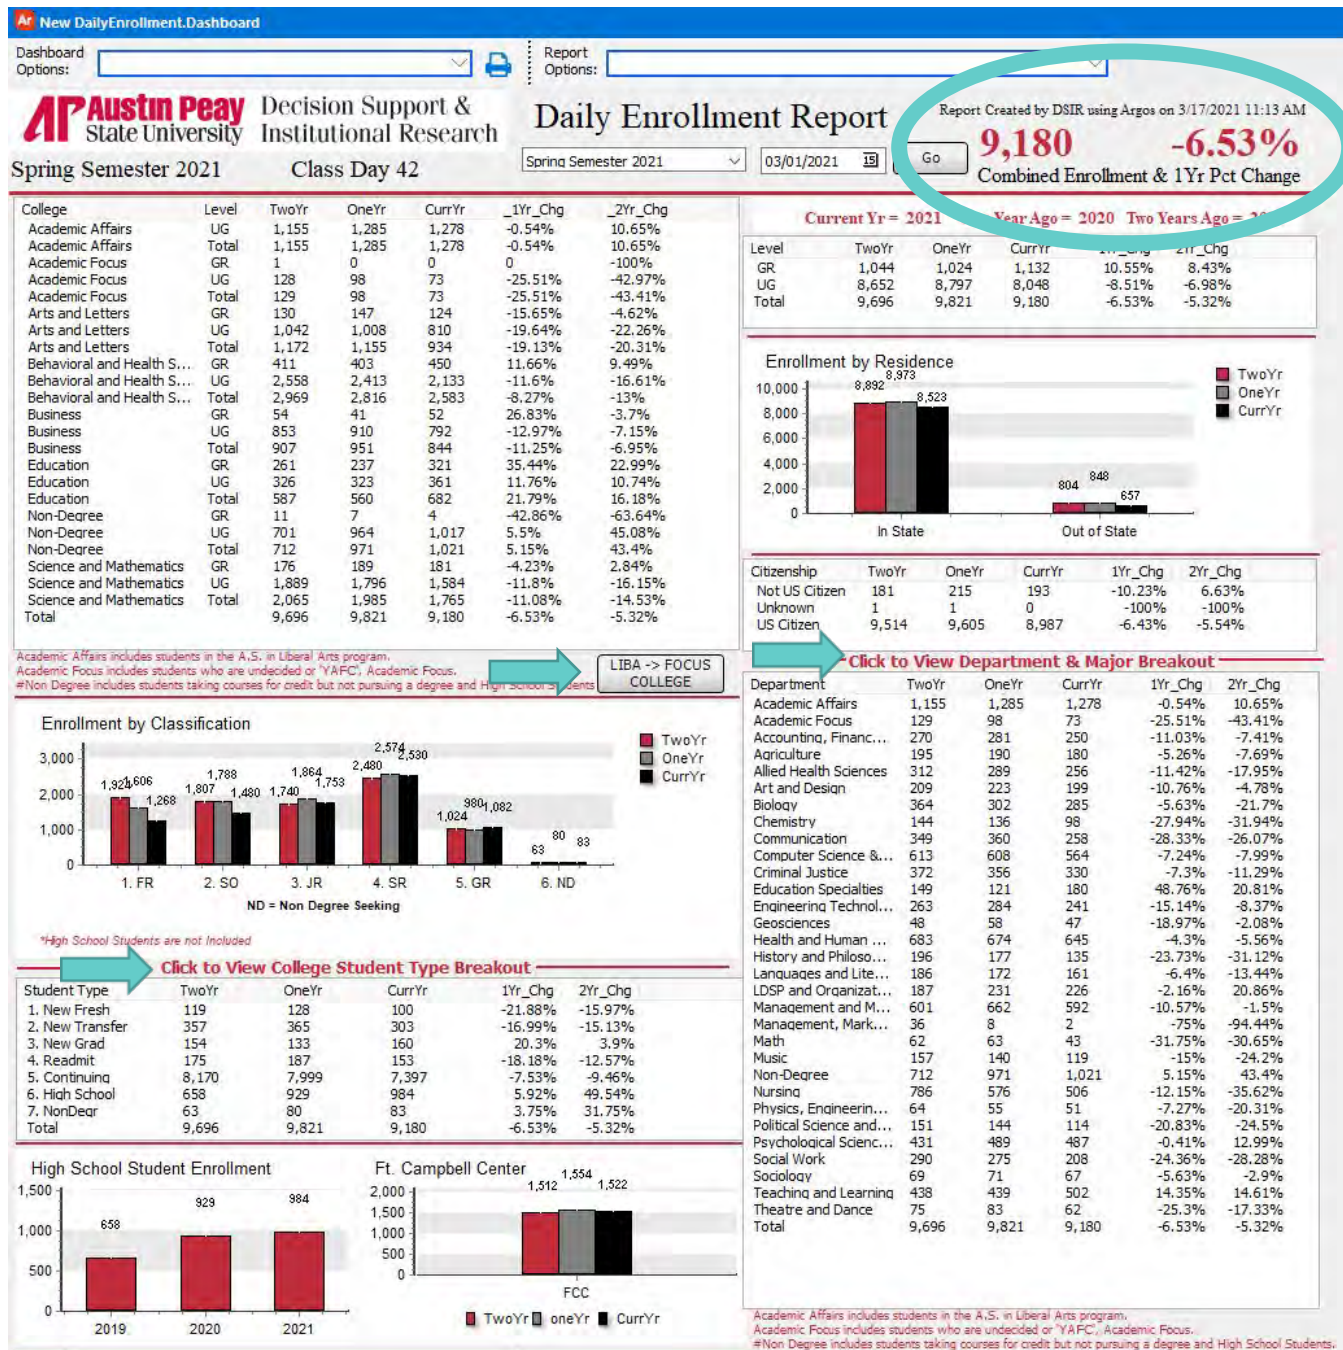

Notice the report is blank until you choose a semester and calendar date. Then click on Go.

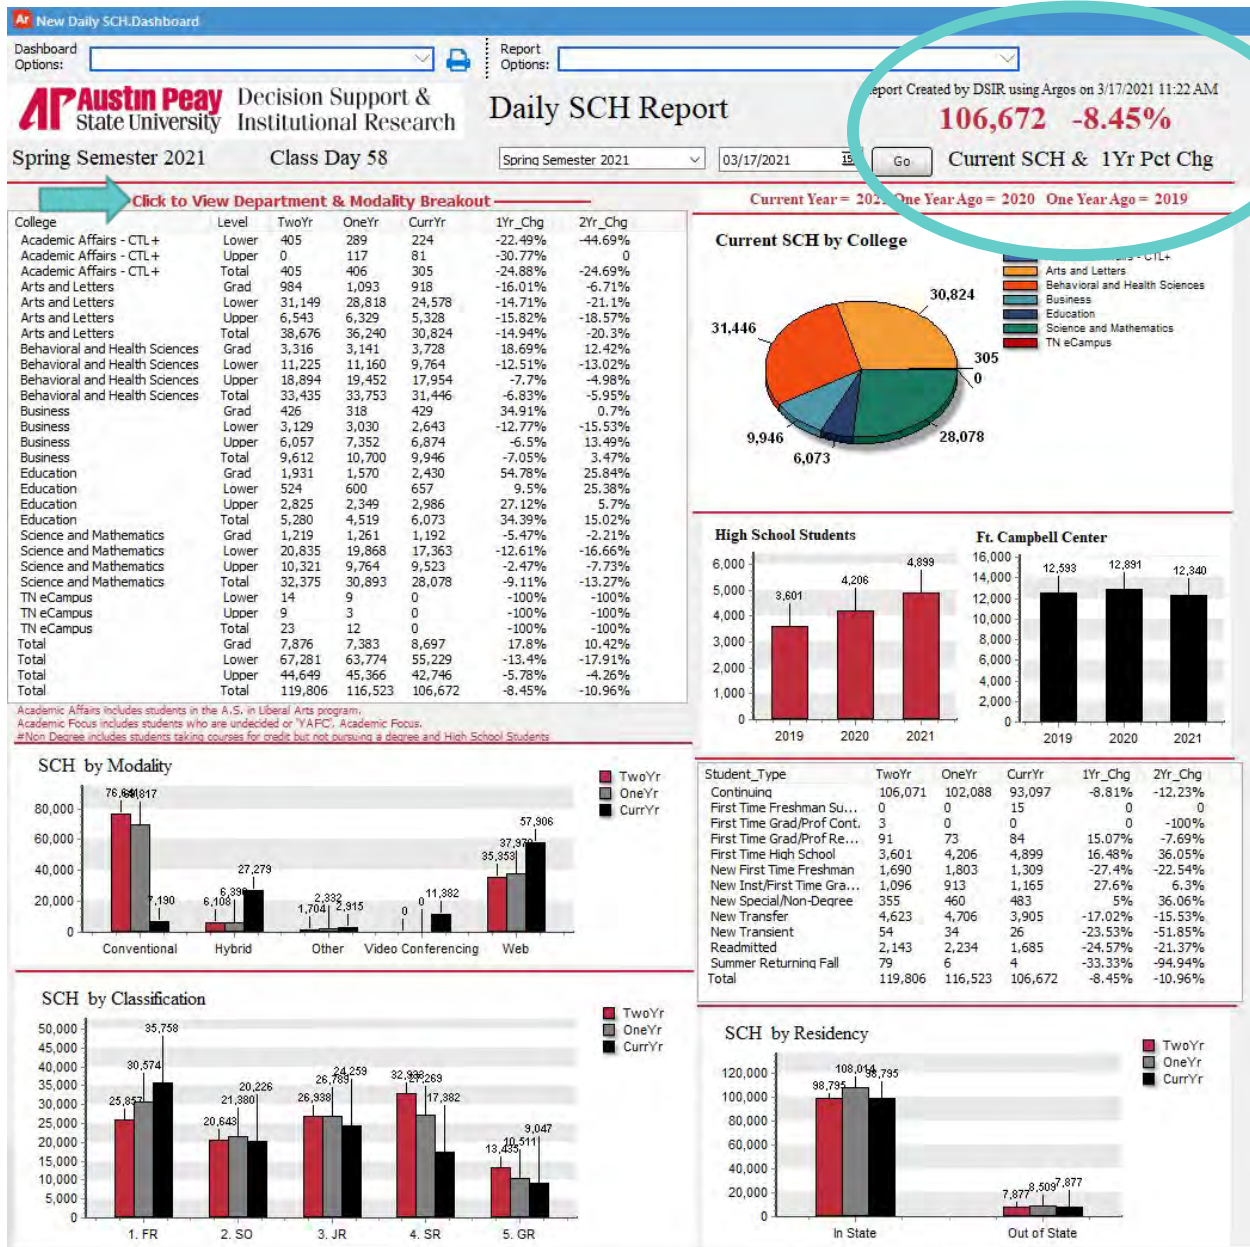

New Enrollment Report

The report will display after running. You will notice the overall enrollment and 1 year percent change at the top on the right hand side. There are three clickable links on the dashboard that will take you to breakouts of data by department/major, LIBA focus by college, and student type by college.

New SCH Report

You will notice the overall SCH totals at the top on the right hand side. There is one clickable link on this report to view the Department and Modality Breakout

Department and Modality Breakout Example:

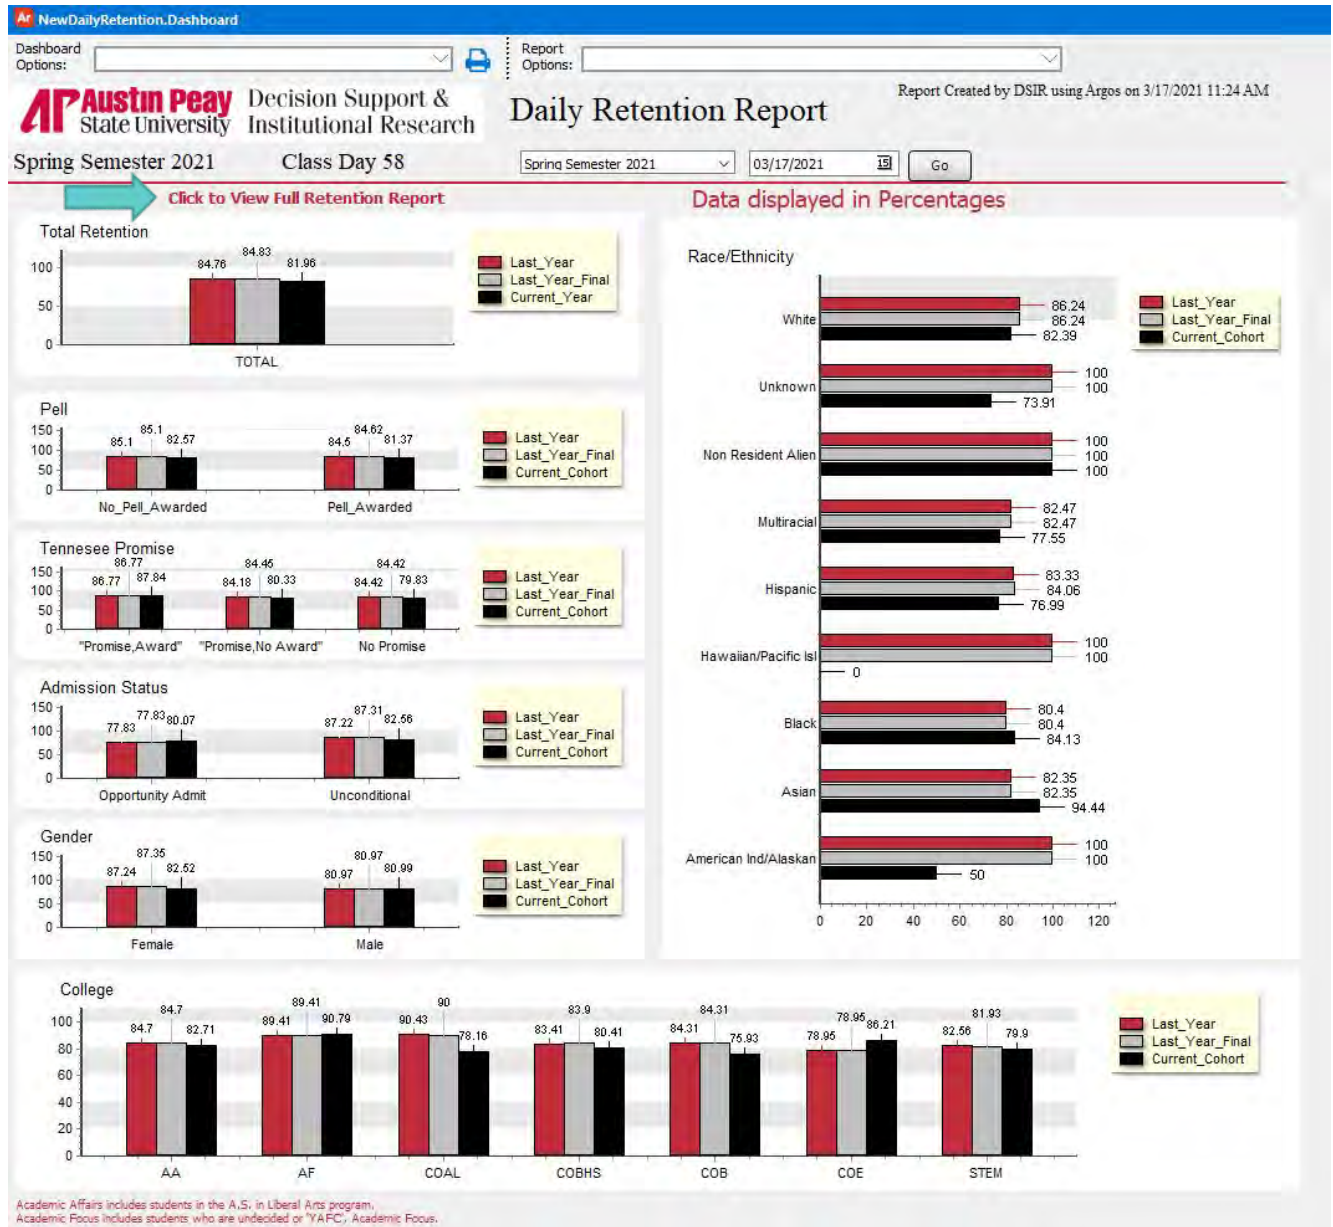

Spring Semester 2021 Class Day 58

Printing the Reports

Printing the reports is possible; however, the reports can be accessed by whatever date you choose at the top of the dashboard.

You can print the report by clicking on the printer on the left hand side.

Be sure to choose landscape orientation and scale to 74% to capture the entire main page of the Enrollment and SCH reports. The Retention report can be printed at 100%.

If the details are needed from a box that can only be viewed by scrolling down, you can right-click and "Copy All" and paste in excel as you would any other Argos report.
