

AP Navigate: Study Buddies

Govs Don't Study Alone.

What Is Study Buddies?

Study Buddies is a student-led feature within AP Navigate (Navigate 360) that allows students to electronically connect with classmates and form study groups independently.

Why It Matters at APSU

When students feel connected in their courses, they are more likely to stay engaged, prepare effectively, and persist through challenges. Study Buddies provides a simple way for Govs to support one another outside the classroom.

How Students Access Study Buddies

- Open AP Navigate (through OneStop or Navigate 360 app)
- Select Study Buddies
- Choose the course
- Click Join

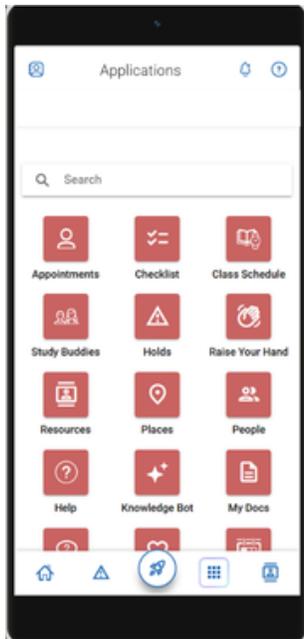

Optional 30-Second Classroom Mention

“Govs don't have to study alone. If you'd like to form a study group, AP Navigate includes a feature called Study Buddies. Just open the AP Naigate, select Study Buddies, choose this course, and click Join. It's optional and student-led.”

Faculty Note

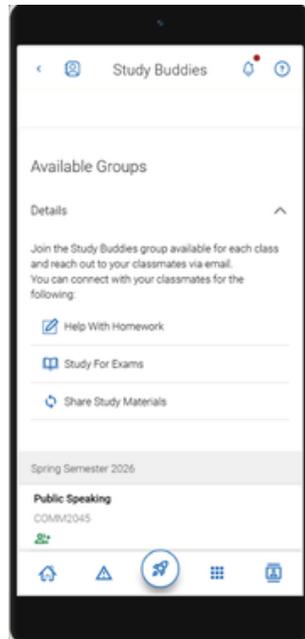

Platform guidance suggests Study Buddies is most effective when students engage organically. Faculty are welcome to highlight the feature while allowing students to determine whether and how they use it.

Let's Study Together WITH AP NAVIGATE

STEP 1

Tap the Applications Grid. Tap "Study Buddies."

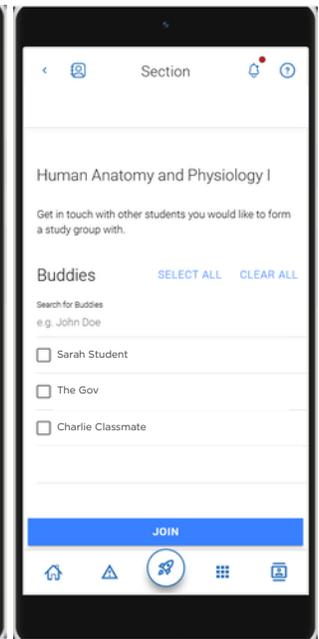

STEP 2

Choose the course.

STEP 3

Click "Join."

Don't study alone.

Study Buddies is a great tool for connecting with classmates in any of your classes.
