The meeting was called to order by Trustee O’Malley. Board Secretary, Dannelle Whiteside called the roll. All Board members were present with the exception of Dr. Gary Luck. There was a quorum.

Adoption of Agenda

Discussion

Trustee O’Malley informed the Board that some items for consideration are on a consent agenda. He asked if there were any items on it that the Trustees would like extracted. There were none.

Conclusions

Trustee O’Malley then moved for the adoption of the agenda, including the items on the consent agenda. The motion was seconded by Trustee Atkins. A voice vote was taken and passed unanimously with 8 trustees voting yes.

Approval of Minutes

Discussion

A motion was made by Trustee Carroll to approve the minutes for the May meeting. Trustee Wallenius requested that the minutes be amended to state that she urged the board to reject the approval of the athletics fee increase because the overall increase was steep with regards to the current fee because not all students have
the authorization to use the athletics facilities and equipment which should minimize their financial responsibility to the athletics department. There were no objections to the amendment offered by Trustee Wallenius.

Conclusions

Trustee Carroll made a motion to adopt the May minutes with the revisions made by Trustee Wallenius. Trustee Mealer seconded the motion. A voice vote was taken and passed unanimously with 8 trustees voting yes.

Campus Spotlight

Discussion

Before the campus spotlight presentation began, President White took a moment to introduce to the Board some of the deans, directors and vice presidents who were present at the meeting.

She then introduced Dr. Sherry Byrd who spoke to the Board regarding the Center for Service Learning and Community Engagement. She introduced the Director, Alexandra Wills who explained the Center’s mission and activities.

There are 50 courses offered on campus which help students learn skills that enable them to be involved in their local community as well as their region and internationally. Students who take these courses volunteer 12-15 hours in their community. They make ceramic bowls for fundraising, plant trees, and are currently working toward getting an old church in Coopertown, TN on the historical register.

The Center participates in an alternate spring break program where student groups go to other cities, states, and countries to volunteer. Cassie Meadows, a current student majoring in social work, spoke about her experience in Louisiana where she served meals in a rescue mission, worked at the Audubon Institute, and volunteered at a rescue center for pit bulls.

President’s Report and Report on Interim Items

Discussion

Trustee O’Malley requested that President White present her report. She stated that Austin Peay State University is making progress on the master plan and it will change over time. The goals are to provide adequate space in which to educate students, create a good environment for faculty and staff, and to support the community. The master plan must align with the strategic plan of growing graduate students by offering more doctoral programs such as psychology, enrolling more international students, and creating a larger presence at the Ft. Campbell Center. Focus will also be placed on student success and serving the military and their families. Austin Peay had a 32% increase in first-time freshmen this year, which is creating a strain on APSU’s resources and housing. Potential public/private partnerships may be considered in the future to build new housing.

There was discussion regarding total current enrollment. Provost Gandy stated that currently it is approximately 10,200 and is estimating 300 more from Ft. Campbell for a total of 10,500. President White stated that she hopes to pull the number of students who were lost between 2011-2015 back in which would make enrollment near 13,000 in the future.

<td>Mr. Art Lidksy gave an update on the master planning process. He presented comparisons based on other five-year institutions in the state on items such as classrooms, laboratories, and the library. It has been determined that APSU does not utilize its classrooms as much as it should and the ones it is using are at capacity. Classroom sizes are small, but Austin Peay needs more space and more/different rooms. He stated that public/private partnerships may be something Austin Peay needs to consider in the future to keep projects off of its budget. This is something that must be examined carefully.</td>
</tr>
</tbody>
</table>

Mr. Lidksy presented a list of potential new projects as well as future renovations. A health professional building seems to be a priority at an estimated cost of $48 million for the building alone and $65 million total cost included other miscellaneous expenses. The library is inadequate to provide students the active learning environment needed, however, the location is great. A new student
success building could easily be tied to the library in the future. There is plenty of room on campus for more buildings.

There was some discussion regarding, optimizing the use of classroom space/hours and, parking for students as enrollment grows.

Subject: Project Management Graduate Certificate

Action Recommended: Recommend approval to establish new graduate certificate

Background Information:

The Department of Leadership and Organizational Administration in the College of Behavioral and Health Sciences proposes a 9-credit hour online graduate certificate in Project Management. The proposed program is designed to serve students who wish to earn a graduate credential while preparing to apply for the Project Management Institute’s (PMI) Project Management Professional (PMP)/Certified Associate in Project Management (CAPM) exams. The certification earned by passing these exams is highly desirable among hiring employers.

Proposed Implementation Date: Summer 2018

Item Details:

The Project Management Graduate Certificate will help students build their skills and credentials in project management, and prepare them to take the Project Management Professional (PMP) Exam. Students will complete this 9-credit hour online program by taking three courses, including one course in project management (LDSP 5420 Applied Project Management), and two of the following elective courses: LDSP 5300 Survey of Best Practices in Leadership; LDSP 5060 Communication Skills for Organizational Administration; LDSP 5105 Project Planning and Scheduling; LDSP 5110 Organizational Innovation; LDSP 5200 Organizational Culture, Politics and Change; LDSP 5560 Small Group Leadership; and/or LDSP 5700 Conflict Management and Negotiation.

Currently, APSU offers a PMP Exam preparation series through the Department of Continuing Education. Since many students who take this non-credit series have already earned a Bachelor’s degree, many students have requested that this program be offered for credit at the graduate level. Some of these students are active duty and retired military service members. Graduate certificates are often covered by the Post 9/11 GI Bill, while non-credit Continuing Education courses are not covered. Creating this graduate
certificate will allow these students to obtain a graduate credential while using their military education benefits.

This certificate is designed to complement other APSU graduate degrees, especially the Master of Professional Studies (MPS) in Strategic Leadership. Students who complete the Project Management Graduate Certificate will be able to apply all three credit courses toward the MPS degree if they decide to continue as a graduate student and apply to the MPS program.

Students who complete the Project Management Graduate Certificate will be able to demonstrate several learning outcomes:

- Prepare and apply for the PMI PMP®/CAPM® Exam using key concepts, terms, formulas, and proven exam-taking skills
- Effectively apply information from the PMBOK® (Project Management Body of Knowledge) Guide to simulated projects
- Utilize proven project and general management methodologies on projects in various environments/industries
**Agenda Item:** A.ii.

**Date:** December 1, 2017

**Subject:** Ed.D. Program/Level Change Approval

**Action Recommended:** Approval of Ed.D. Program/Level Change

**Background Information:**

The Doctor of Education (Ed.D.) degree in Educational Leadership at Austin Peay State University (APSU) will focus on providing skills to a variety of leaders in public and private education at both the K-12 and higher education levels.

**Supporting Area Needs:** Since 2005, students, K-12 administrators from seven area school districts, current APSU employees, and community college administrators have requested that APSU establish a doctorate in educational leadership. The Ed.D. provides a way for individuals to expand their knowledge and training beyond a master’s or Educational Specialist degree (Ed.S.), which APSU currently offers.

**Job Market:**

- Employment is projected to increase by 6% for elementary and secondary school administrators in the nation from 2014-2024. In Tennessee, the projected employment for administrators for elementary and secondary schools is 5,680 with average annual openings of 220 jobs with 1.6% annual growth.
- Employment is projected to increase by 8% for post-secondary administrators in the nation from 2014-2024 with a beginning salary of $92,000. At the postsecondary level, the Bureau of Labor Statistics (BLS) projects 15 percent growth in administrator employment, producing around 23,500 new jobs in the same period.
- Currently, over 50 individuals have been identified who wish to participate in the initial Ed.D. cohort.

*Estimated Enrollment:* The cohort model will admit 20 students in first cohort (Fall 2018) and 15 each subsequent year.
Distinctiveness: The proposed program represents the first doctoral program offered by APSU, constituting a SACSCOC Level Change from Level IV to Level V. APSU will submit the Level Change Application to SACSCOC in February 2018.

In addition, the Ed.D. is designed to meet the needs of several groups of potential students.

- Current educational leaders in the K-12 environment who currently hold an administrative license.
- Classroom teachers who have earned master’s or Ed.S. degrees who wish to acquire their administrative license while obtaining a doctorate.
- Classroom teachers who have earned master’s or Ed.S. degrees who do not wish to be a school administrator but desire to become a teacher leader.
- Current educational leaders in the K-12 environment that need to earn the doctorate to either enhance their marketability or to improve their skills.
- Higher education employees who have earned master’s or Ed.S. degrees who desire to earn the doctorate to advance in the administrative structure of their campus.
- Military personnel who desire to continue their education after the master’s degree.

Alignment with College of Education Mission and APSU Strategic Plan: This proposed program supports APSU Goal 1: Enrollment Growth and Goal 2: Student Success: Retention, Completion and Workforce Preparedness

Proposed Implementation Date: Fall 2018

Item Details:

The Ed.D. degree consists of 60 hours beyond a master’s degree. The Ed.D. degree will be housed in the Department of Educational Specialties, within the Martha Dickerson Eriksson College of Education. The program will be coordinated by Dr. Gary Stewart and will be under the supervision of Dr. Moniqueka Gold (Chair of Educational Specialties) and Dr. Prentice Chandler (Dean of the Martha Dickerson Eriksson College of Education).

The program consists of the following coursework:

- leadership theory and practice (12 credit hours),
- organizational analysis (9 credit hours),
- analysis of educational policy (6 credit hours),
- research and statistics (12 credit hours),
- 9+ credit hours of coursework related to the students’ elective interests, and
- 12+ credit hours of dissertation work

Subject: Student Conduct and Disciplinary Sanctions Rule

Action Recommended: Approval by Roll Call Vote

Background Information:

State entities are required to promulgate rules and regulations when the subject of those rules and regulations affects the rights of third parties. At its May 19, 2017 Board meeting, the APSU Board of Trustees approved the Student Conduct and Disciplinary Sanctions Rule. After submission to the Attorney General’s Office, the rules were returned with a few substantive changes. Once these changes are approved by the Attorney General, they will proceed to approval from the Secretary of State, and is subject to final approval by the Government Operations Committee of the Tennessee General Assembly. The promulgation process is enumerated in the Tennessee Uniform Procedures Act at T.C.A. § 4-5-201, et. seq.

Proposed Implementation Date: At the conclusion of the rule promulgation process.

Item Details: See attachment.

0240-05-02-.04 Disciplinary Sanctions
0240-05-02-.05 Disciplinary Procedures

0240-05-02-.01 APSU Policy Statement.

(1) Austin Peay State University (University) students are expected to conduct themselves as law-abiding members of each community at all times. Admission to APSU carries with it special privileges and imposes special responsibilities apart from those rights and duties enjoyed by non-students. In recognition of the special relationship that exists between APSU and the academic community which it seeks to serve, the APSU Board of Trustees (the Board) has authorized the President (the President) to take such action as may be necessary to maintain campus conditions and preserve the integrity of APSU and its educational environment.

(2) Pursuant to this authority and in fulfillment of its duties to provide a secure and stimulating atmosphere in which individual and academic pursuits may flourish, the Board of Trustees has developed the following regulations, intended to govern student conduct on the APSU campus. The University under the jurisdiction of the Board of Trustees is directed to implement policies subject to, and consistent with, these rules. In addition, students are subject to all federal, state, and local laws and ordinances. If a student's violation of such laws or ordinances also adversely affects APSU's pursuit of its educational objectives, APSU may enforce its own regulations regardless of any proceedings instituted by other authorities. Conversely, violation of any section of these rules may subject a student to disciplinary measures by APSU whether or not such conduct simultaneously violates state, local or national laws.

(3) For the purpose of these rules, a "student" shall mean any person who is admitted and/or registered for study at APSU for any academic period. This shall include, but not be limited to any period of time following admission and/or registration, but preceding the start of classes for any academic period. It will also include any period which follows the end of an academic period through the last day for registration for the succeeding academic period, and during any period while the student is under suspension from APSU. Finally, "student" shall also include any person subject to a period of suspension or removal from campus as a sanction which results from a finding of a violation of the policies, rules, and regulations governing student conduct. Students are responsible for compliance with the Policies on Student Conduct and with similar APSU policies at all times.

(4) Disciplinary action may be taken against a student for violation of the policies, rules, and regulations which occur on APSU owned, leased or otherwise controlled property, while participating in international or distance learning programs, and off campus, when the conduct impairs, interferes with, or obstructs any APSU activity or the mission, processes, and functions of APSU. The University may enforce their own rules regardless of the status or outcome of any external proceedings instituted in any other forum, including any civil or criminal proceeding.

(5) These rules, and related material incorporated herein by reference, are applicable to student organizations as well as individual students. Student organizations are subject to discipline for
the conduct and actions of individual members of the organization while acting in their capacity as members of, or while attending or participating in any activity of, the organization.

(6) Confidentiality of Discipline Process. Subject to the exceptions provided pursuant to the Family Educational Rights and Privacy Act of 1974 (FERPA) and/or the Tennessee Open Records Act, a student’s disciplinary files are considered educational records and are confidential within the meaning of those Acts.

Authority: T.C.A. §§ 4-5-101 et seq., 49-8-203, and § 10-7-501 et seq.

0240-05-02.-02 Disciplinary Offenses.

(1) Generally, through appropriate due process procedures, APSU disciplinary measures may be imposed for conduct which adversely affects APSU’s pursuit of its educational objectives, which violates or shows a disregard for the rights of other members of the academic community or which endangers property or persons on APSU, or APSU-controlled property.

(2) Individual or organizational misconduct which is subject to disciplinary sanction shall include but not be limited to the following examples:

(a) Conduct dangerous to self or others. Any conduct, or attempted conduct, which poses a direct threat to the safety of others or where the student’s behavior is materially and substantially disruptive of APSU’s learning environment;

(b) Hazing. Violations of this section include any act of hazing on or off the Austin Peay State University campus or APSU controlled property, by an Austin Peay State University individual, group of individuals or registered student organization. Hazing means any intentional or reckless act on or off the property of any higher education institution by one (1) student acting alone or with others which is directed against any other student, that endangers the mental or physical health or safety of that student, or which induces or coerces a student to endanger such student's mental or physical health or safety. Hazing does not include customary athletic events or similar contests or competitions, and is limited to those actions taken and situations created in connection with initiation into or affiliation with any organizations;

(c) Discrimination or Discriminatory Harassment. Penalties for academic misconduct will vary with the seriousness of the offense and may include, but are not limited to, a grade of “F” on the work in question, a grade of “F” in the course, reprimand, probation, suspension and expulsion. The student will be advised of his/her rights. The student may accept the instructor’s finding, grade reduction, and/or other sanction and waive his/her hearing right. In the event a student believes he/she has been erroneously accused of academic misconduct, he/she may request a hearing. Hearings will be conducted pursuant to the procedures set forth at Part 5, Disciplinary Procedures, below. If the student is found responsible for the allegation(s) of academic misconduct, the grade as assigned by the instructor will stand. immediate contact with faculty, the student may contact the Central Student Affairs office for assistance in providing such immediate notification to faculty. However, the student remains responsible for verifying the emergency circumstances to faculty and for discussing arrangements with faculty for possible completion of coursework requirements, if feasible.

### 0240-05-02-.04 Disciplinary Sanctions.

1. Austin Peay State University (APSU) shall adopt and publish a policy, providing notice of potential disciplinary sanctions applicable to both individuals and organizations. The policy may include any appropriate sanction subject to prior review by the APSU Office of Legal Affairs and approval by the Board of Trustees. Upon a determination that a student or student organization has violated any of the disciplinary offenses set forth in these rules, disciplinary policies, or the general policies, disciplinary sanctions may be imposed, either singly or in combination, by the appropriate school officials. (Note: Final results of disciplinary proceedings for violations that include violent acts or non-forcible sex offenses, as defined by Tennessee law, may be released without permission of the student perpetrator.)

2. **Definition of Sanctions.** The following provides a non-exhaustive list of possible sanctions with corresponding definitions:

   a. **Restitution.** Restitution may be required in situations which involve destruction, damage, or loss of property, or unreimbursed medical expenses resulting from physical injury. When restitution is required, the student or student organization is obligated by the appropriate judicial authority to compensate a party or parties for a loss suffered as a result of disciplinary violation(s). Any such payment in restitution shall be limited to actual cost of repair, replacement or financial loss;

   b. **Warning.** The appropriate APSU official may notify the student or student organization that continuation or repetition of specified conduct may be cause for other disciplinary action;

   c. **Reprimand.** A written or verbal reprimand or censure may be given to any student or student organization whose conduct violates any part of these rules and provides notice that any further violation(s) may result in more serious penalties;

   d. **Restriction.** A restriction upon a student's or organization's privileges for a period of time may be imposed. This restriction may include, but is not limited to, the following: denial of the right to represent APSU in any way, denial of the use of APSU facilities and/or parking privileges, restriction of participation in extracurricular activities, restriction of organizational privileges including registration, and restriction of the transfer of academic credit from another institution;

   e. **University Probation.** Continued enrollment of a student or student organization on probation may be conditioned upon adherence to these rules. Any student or organization placed on probation will be notified of such in writing, either in hard copy or electronic, and will also be notified of the terms and length of probation. Probation may include restrictions upon the extracurricular activities of a student or organization. Any conduct in violation of these rules while on probationary status
or the failure to comply with the terms of the probationary period may result in the imposition of a more serious disciplinary sanction;

(f) Suspension. If a student or student organization is suspended, he/she or the organization is separated from APSU for a stated period of time with conditions for readmission stated in the notice of suspension;

(g) Expulsion. Expulsion entails a permanent separation from APSU. The imposition of this sanction is a permanent bar to the student's readmission, or a student organization's recognition to APSU. A student or organization that has been expelled may not enter APSU property or facilities without obtaining prior approval from an appropriate campus official with knowledge of the expulsion directive;

(h) Interim or Summary Suspension. As a general rule, the status of a student or student organization accused of violations of these rules should not be altered until a final determination has been made in regard to the charges. Interim or Summary suspension may be imposed upon a finding by the appropriate APSU official that the continued presence of the accused on campus constitutes an immediate threat to the physical safety and well-being of the accused or of any other member of the APSU community or its guests, destruction of property, or substantial disruption of classroom or other campus activities. In any case of interim suspension, the student, or student organization, shall be given an opportunity at the time of the decision, or as soon thereafter as reasonably possible, to contest the suspension;

(i) Housing Probation. A resident or student organization placed on housing probation is deemed not to be in good standing with the housing community, and his/her continued residence is conditioned upon adherence to these rules and the Housing Contract. Any resident placed on probation shall be notified in writing of the terms and length of the probation. Probation may include restrictions upon the activities of the resident, including any other appropriate special condition(s). Any conduct of a similar or more serious nature in violation of the probation shall result in suspension from housing;

(j) Housing Suspension and Forfeiture. A resident or student organization suspended from housing may not reside in, visit, or make any use whatsoever of a housing facility or participate in any housing activity during the period for which the sanction is in effect. A suspended resident shall be required to forfeit housing fees (including any unused portion thereof and the Housing deposit). A suspended resident must vacate the housing unit within forty-eight (48) hours. Housing suspension shall remain a part of the student's disciplinary record;

(k) Service to the University. A student or student organization may be required to donate a specified number of service hours to APSU, by way of performing reasonable tasks for the appropriate APSU office or official. This service shall be commensurate to the offense the student is guilty of violating (i.e., service to maintenance staff for defacing APSU property);

(l) Special Educational Program. A student or student organization may be required to participate in any special educational programs relevant to the offense, to attend special seminars or educational programs or to prepare a project or report concerning a relevant topic;

(m) Smoking and Clean Air Policy Violation. There will be graduated fines imposed for violation of the Smoking and Clean Air policy:
1. First Offense- $25.00
2. Second Offense- $50.00
3. Third Offense or more- $100.00 and for additional Disciplinary Charges;

(n) Interim or Summary Suspension from Campus Housing. Though as a general rule, the status of a student or student organization accused of violations of these regulations should not be altered until a final determination has been made in regard to the charges against him or her, interim suspension from campus housing may be imposed upon a finding by the appropriate APSU official that the continued presence of the accused in Austin Peay State University housing constitutes an immediate threat to the physical safety and well-being of the accused, or of any other member of the APSU community or its guests, or the destruction of property. A final determination of the charges against any student or student organization summarily suspended from campus housing shall be made through appropriate hearing procedures within seven (7) class days of such housing suspension during which time the accused shall forfeit the right to reside in or visit campus housing facilities. The accused student shall be permitted to attend classes during this interim period.

(o) Referral for Intervention, Assessment and/or Counseling. The student is mandated to visit the appropriate APSU official for an initial intervention and assessment which may be followed by required participation and a prescribed plan of action or treatment plan. Parents or legal guardians may be notified;

(p) Fines. Penalties in the form of fines may be enforced against a student or an organization whenever the appropriate hearing officer(s) or hearing body deems necessary. The sanction of fines may be imposed in addition to other forms of disciplinary sanctions. Failure to pay fines to the Business Office within two weeks of the decision will result in further disciplinary action;

(q) Letter of Apology. A student or student organization may be required to write a letter of apology to APSU or its guests, another student or student organization, faculty or staff member, or any other constituent affected by the behavior for which the student or student organization has been found responsible. The letter shall be written and sent within seven (7) class days of notification of sanction and copies to the appropriate hearing body or official;

(r) Revocation of Admission, Degree, or Credential; and,

(s) Any alternate sanction deemed necessary and appropriate to address the misconduct at issue.

4. Reverse the previous decision.

(f) The Senior Student Affairs Officer shall issue a written decision within ten (10) class days after the appeal is filed by the student.

(g) The decision of the Senior Student Affairs Officer is final.

(7) Student Organization Disciplinary Procedures.
Sanctions against Student Organizations. Any registered student organization may be given a warning, reprimand, placed on probation, suspension, or restriction or may have its registration withdrawn by the Dean of Students, or by a Student Affairs Administrator appointed by the Senior Student Affairs Officer. Such actions may be taken after having a hearing conducted in accordance with the procedures outlined in these rules for disciplinary procedures. In the case of Withdrawal of Registration of an organization, the procedures to be used will be the contested case provisions of the Tennessee Uniform Administrative Procedures Act, unless those provisions have been waived in writing by an authorized representative of the student organization. Such action may be taken for any one of the following reasons:

(a) The organization fails to maintain compliance with the initial requirements for registration.

(b) The organization ceases to operate as an active organization.

(c) The organization requests withdrawal.

(d) The organization operated or engaged in any activity in violation of the policies, rules, and regulations of APSU, of any governing body of federal or state laws.

Subject: Approval of the October Revised Budget for Fiscal Year 2017-18

Action Recommended: Approval by Roll Call Vote

Background Information:

Board Policy 1:022 Budget Principles and Control recognizes budgeting as the process whereby the plans of the University are translated into an itemized, authorized, and systematic plan of operation, expressed in dollars, for a given period. This policy also recognizes that a budget is a plan and that circumstances may necessitate revisions or changes to the original plan from time to time. In view of this, the University submits detailed budgets for approval three times each fiscal year.

The Board will consider the October 2017 revisions to the 2017-2018 budget for the University. The original budget for fiscal year 2017-2018 was developed by the University in the spring of 2017 and was submitted to TBR in May 2017. As such, this budget included a variety of estimates. The University’s budget submission was the basis for the Board’s May 2017 approval of the initial FY 2017-2018 operating budget (the “Proposed Budget”). The October Revised Budget is based on more recent information, including recognition of the impact of fall enrollment, and includes the effect of revisions from the approved Proposed Budget.

Proposed Implementation Date: October 2017

EXECUTIVE SUMMARY

This campus plan is an update to the original campus plan that was prepared in 2013. It reflects the change in land ownership, the direction set by a new president and administration, and the development of a University Strategic Plan.

The Strategic Plan has been instrumental in guiding the discussions and direction of this revised campus plan. Input from the many APSU constituents who have participated in the planning process is reflected in the plan. The plan provides a framework for decision making that includes descriptions of context, land use, building use, topography, pedestrian and vehicular circulation and parking, landscape, campus design, development constraints and opportunities, and sequence.

Please refer to Drawing 1.1: Concept Plan on page 5. The Campus Plan described in this report is summarized here by brief descriptions of key proposed projects listed by location and not in any priority.

2015 – 2025 Vision Statement

APSU’s vision is to create a collaborative, integrative learning community, instilling in students habits of critical inquiry as they gain knowledge, skills and values for life and work in a global society.
Drawing 1.1 Site Number Key

A. Construct a Health Professions Building on Eighth Street north of Maynard Mathematics and Computer Science building. The Health Professions building will consolidate the School of Nursing, the departments of Allied Health, Psychological Science and Counseling, the offices for Health and Human Performance, and Social Work. The building will also provide active learning classrooms and collaborative learning spaces.

B. Upon completion and occupancy, the Health Professions Building will free-up space in four buildings: McCord, Sundquist Science, Clement, and Dunn—a total of 35,000 net assignable square feet. Adjacent academic departments will, if needed, expand into the vacant space that will be renovated to meet their needs.

C. Expand and convert the Woodward Library to reflect the changing nature of collegiate libraries and to be a more student-centered resource including various venues and formal and informal small group work areas and collaboration spaces. The Student Success Center can be combined with the expanded library.

D. It is clear that APSU is at classroom capacity and as enrollment increases, the situation will only worsen. Construct a general purpose academic building with various classrooms, informal student collaboration spaces and support. Depending on the timing for this building, the Student Success Center might be incorporated in this academic building instead of the expanded library. Demolish Marks, an inappropriate support building in poor condition. Middle College, in Marks, could relocate to the new Academic Building or in space vacated by the departments moving into the Health Professions Building.

E. Reserve a large site across College Street adjacent to the campus for a mixed-use development to be created as a possible public private partnership (P3). This significant site located at the edge of the Clarksville city center, adjacent to the campus, will create a connection between the two.

F. The Harvell Bookstore building will become vacant when the bookstore relocates across College Street to the corner of College and 4th streets. There are a number of options for the reuse of this strategically located building: dining (the building was once the dining hall), post office, lounge, offices for dining services, the Honors program, or the Student Success Center. The building is right in the heart of the University—the focus of Student Life.

G. If the University continues to grow its enrollment as it has in the recent past, an assessment of APSU’s student housing and dining resource should be conducted to help the University make a rational plan for moving forward. This assessment is particularly important given the possibility of a P3 development across College Street.

A critical evaluation of student housing and a careful review of the various venues presently in operation on campus should be part of this assessment. There are seven venues available on campus, including the cafeteria and food court in Morgan, Sundquist, Subway, Terrace, Starbucks, and the Foy Center. Only after a careful housing/dining study, can the University make a rational, data-driven choice and avoid an ad hoc decision. It is recommended that a focused housing and student life master plan be developed.

H. Expand surface parking throughout the campus on existing lots through minor adjustments to the sites and through careful redesign and restriping to improve capacity. No longer cutting edge are pay-by-phone apps for metered parking on campus. Although it is not needed now, at some point in the future, when enrollment targets are met, the University will need to decide whether to pursue the creation of a parking structure. One of several existing parking lots could become the site of a structure that has the capacity of 250 to 500 cars. In the meantime, parking across College Street, and parking on select streets such as Marion and Drane will meet the needs.

I. Pedestrian circulation improvements include transforming Browning Drive and portions of Henry street from vehicular to pedestrian use while emergency and service vehicles will still have access. Closing both to traffic will create a truly pedestrian zone in the core of the campus. Closing Henry Street creates an opportunity to fully incorporate the new Art and Design building, the Trahern building, and the associated green space with the campus core.

J. Marion Street improvements include widening the pedestrian pathways, adding street trees, and landscaped beds. As a city street, any improvements will require approval from the city of Clarksville.

K. Expand the Winfield Dunn Center to include a practice gymnasium. Complete the Baseball Park that has been recently planned and designed.

L. Expand the Foy Fitness Center to provide additional venues for recreation and clubs.

M. Develop traffic calming initiatives along College and Marion streets in coordination with the city of Clarksville. The intersection of 4th and College should also be redesigned to improve pedestrian safety and eliminate vehicular conflicts. As a City street, this too, will require coordination with the city of Clarksville.

N. A critical question to consider as the campus expands southward is how will the University overcome the barrier of College Street in its current form? As the University grows in response to its Strategic Plan, College Street will not only be a major city street but a campus street as well. Four options of varying complexity have been created to address the challenge at the intersection of College Street and University Avenue.

The least complex approach would be to improve the existing pedestrian crossings at the intersection of College and University. Travel lanes for vehicular traffic would be narrowed to 10 feet in width to encourage slower travel speeds. Landscaped pedestrian refuges would provide a safe location to rest for individuals with mobility issues. Sidewalks and bicycle lanes will provide improved accommodations over the current design. Brick paving can be utilized to communicate the unique nature of the space.

Another options is an elevated Square Crosswalk that utilizes separated bridges to eliminate conflicts between pedestrians and vehicles. Bridges are accessed by towers containing stairwells and elevators for individuals with mobility issues. A related option is an elevated circular crosswalk which eliminates one tower. The remaining tower, located in the historic quad, doubles as a clock tower adding a focal point to the unique character of the space.

BACKGROUND

Austin Peay State University (APSU) is located in Clarksville, Tennessee. The school is named after former Tennessee Governor Austin Peay. Austin Peay is a four-year public university offering over 56 majors and 63 different concentrations. Austin Peay State University also owns and leases satellite facilities for the Austin Peay Center at Ft. Campbell located in Ft. Campbell, Kentucky.

The University began as Austin Peay Normal School when it was created as a two-year junior college and teacher-training institution by Act of the General Assembly of 1927, and named in honor of Governor Austin Peay. Limited in purposes and resources initially, the school gradually grew in stature over the years to take its place among the colleges and universities under the control of the State Board of Education.

In 1939 the State Board of Education authorized the school to inaugurate a curriculum leading to the Bachelor of Science degree. By Act of the Tennessee Legislature of February 4, 1943, the name of the school was changed to Austin Peay State College. In 1951 the State Board authorized the College to confer the Bachelor of Arts degree and, in 1952, to offer graduate study leading to the degree of Master of Arts in Education. The State Board of Education conferred university status on the College in 1966 and in 1967 the State Board of Education authorized the University to confer the Master of Arts and the Master of Science degrees. The following year associate degrees were approved.

The State Board of Education relinquished its governance of higher education institutions to the Tennessee State Board of Regents (TBR) in 1972, and in 1974 the TBR authorized the Bachelor of Fine Arts and the Education Specialist Degrees. The Bachelor of Business Administration degree was approved as a replacement for traditional B.A. and B.S. degrees in various fields of business and the Bachelor of Science in Nursing degree was approved in 1979. The TBR approved the Master of Music degree and Master of Arts in Education in 1983, and in 2001 authorized the Bachelor of Professional Studies.

An extension of Austin Peay State University’s main campus is located at Fort Campbell, Kentucky, known as the Austin Peay Center at Fort Campbell.

In December 2015, Governor Bill Haslam announced plans to change the state’s public higher education system by creating independent governing boards of trustees for the six universities currently managed by the Tennessee Board of Regents. Each of the universities would have their own local boards and be able to set tuition rates, approve budgets and set priorities independently. TBR would continue to manage the state’s network of community colleges and technical institutions. This revised campus plan is the first for APSU under this new governance.

PLANNING PROCESS

The planning process at Austin Peay State University involved many stakeholders in open meetings, department meetings, and one-on-one meetings.

The project’s primary consultant was DOBER LIDSKY MATHEY (DLM). Landscape, open space, circulation, and storm water analysis were addressed by Lose & Associates, Inc.

There were five steps, which are described graphically in Diagram 2.1. The foundation for the planning was an understanding of the University’s mission and vision. Preliminary assumptions were identified based on these factors.

The first step was a review of the University’s mission and the articulation of planning assumptions. Projected changes in enrollment, staffing, and curriculum were factored into the planning. One key factor is the target for enrollment growth: 15,000 head count, which translates to 11,750 full time equivalent (FTE) students. The 15,000 student target includes various categories of students, including online students and dual enrollment students who aren’t physically present on campus and will not have an impact on the facilities, operations, and services that “on the ground” students will have.

The target for the number of students who will be physically present on campus is 12,400 head count and 8,960 FTE students.

Concurrently, an assessment and analysis of the campus was conducted for both site and buildings and of the environs. The University provided a campus base map that indicated paths, streets, topography, building locations, and University-owned property. The base map is an essential tool for campus planning and should be kept up-to-date as plans are implemented.

Diagram 2.1
Facility needs were then defined and alternative concept plans developed. The Campus Plan is a synthesis of the various concept plans that were explored.

There were two main committees that guided the campus plan: an Executive Committee and an Advisory Committee. In addition, four task forces were created to focus on specific areas of need at the University including Learning Spaces, Parking, Student Residences and Dining, and Athletics and Recreation. Meetings were held with deans, faculty, staff, and students. The membership of the two committees were:

### Executive Committee
- Alisa White / President
- Rex Gandy / Provost and Vice President for Academic Affairs
- Mitch Robinson / Vice President for Finance and Administration
- Sherryl Byrd / Vice President for Student Affairs
- Derek van der Merwe / Vice President for Advancement, Communication & Strategic Initiatives
- Danielle Whiteside / General Counsel and Secretary to The Board
- Carol Clark / Executive Assistant to the President for Community and Government Relations
- Ryan Ivey / Athletic Director
- Tucker Brown / Faculty Senate President
- Ryan Millard / Staff Senate President
- Ryan Honea / Student Government Association President

### Advisory Committee
- Marc Brunner / Director of University Design & Construction
- Lynne Crosby / Vice Provost / Associate Vice President for Academic Affairs
- David Denton / Dean of the College of Behavioral & Health Services
- Carlette Hardin / Dean of the College of Education
- Tom Hutchins / Director of Physical Plant Operations
- Joe Mills / Assistant Vice President of Student Affairs / Director of Housing, Residential Life, and Dining Services
- Judy Molnar / Associate Vice President for Information Technology
- Charles Moses / Interim Dean of the College of Business
- Cindy Taylor / Interim Executive Director of the APSU Center at Fort Campbell
- Jaime Taylor / Dean of the College of Science & Mathematics
- Dixie Webb / Dean of College of Arts & Letters

## MISSION, VISION, AND PRIORITIES

Underlying all campus planning is an institution’s mission, vision for the future, and stated values. APSU’s mission is to provide opportunities that support regional needs.

### APSU Mission Statement

“Austin Peay State University is a comprehensive university committed to raising the educational attainment of the citizenry, developing programs and services that address regional needs, and providing collaborative opportunities that connect university expertise with private and public resources. Collectively, these endeavors contribute significantly to the intellectual, economic, social, physical, and cultural development of the region. APSU prepares students to be engaged and productive citizens, while recognizing that society and the market place require global awareness and continuous learning. This mission will be accomplished by:

- Offering undergraduate, graduate, and student support programs designed to promote critical thinking, communication skills, creativity, and leadership;
- Expanding access opportunities and services to traditional and nontraditional students, including the use of multiple delivery systems, flexible scheduling, and satellite locations;
- Promoting equal access, diversity, an appreciation of all cultures, and respect for all persons;
- Serving the military community at Fort Campbell through complete academic programs;
- Providing academic services that support student persistence to graduation;
- Fostering a positive campus environment that encourages active participation in university life; and
- Developing programs (credit and noncredit), conducting research, and providing services that contribute significantly to the quality of life, learning, and workforce development needs of the region.”

The University’s vision focuses on interdisciplinary teaching and learning to gain the tools needed for living in a global economy.

### Vision Statement

“APSU’s vision is to create a collaborative, integrative learning community, instilling in students habits of critical inquiry as they gain knowledge, skills, and values for life and work in a global society.”
To achieve the APSU’s vision, the University 2015-2025 Strategic Plan focuses on five strategic goals:

- Grow Enrollment – as stated earlier, the target is 15,000 student head count.
- Enhance Student Success: Retention, completion, and workforce preparedness
- Sustainability
- Expand Diversity
- Communication, Branding, and Strategic Planning

CAMPUS ANALYSIS

The six drawings on the next page; Drawing 2.1, summarize the analysis of the physical campus that is an essential part of the planning process and include: Topography, Predominant Use, Pedestrian Circulation, Parking & Vehicular Circulation, Students in Residence, and Campus Landscape
The drainage system on the campus is designed to carry runoff from impervious surfaces to the pond. The pond is an amenity for the campus, and concerns with the pond need to be addressed to minimize/eliminate the frequency of flooding, improve overall aesthetics, improve water quality, and limit safety concerns with the pond.

Improving the drainage at Meacham Apartments could consist of implementing a solid waste policy for their dumpsters in which all dumpster drains connect to the sanitary sewer systems, or require dumpster drains to remain permanently plugged to reduce the leaking waste to storm systems. Several of the stormwater outlets around campus do not have adequate outlet protection and scouring is occurring at the end walls. Outlet protection at all outlets should be provided to minimize erosion and scouring at the discharge locations. Guidance for sizing rip-rap outlet protection is provided by TDEC. In general, the campus should avoid draining parking lots at grade across sidewalks and into streets, and should require that impervious surfaces be treated for water quality and subsequently picked up in stormwater conveyances. Building downsputs should also be picked up in an underground system and piped to a selected discharge location to minimize the risk of future water intrusion and foundation concerns.

Austin Peay State University should consider conducting a campus-wide stormwater management study to improve the drainage and water quality on campus, limit the impacts of flooding, identify critical storage areas, and provide recommendations on the most appropriate permanent stormwater quality BMP to implement on campus.
PREDOMINANT USE

Predominant use of campus buildings are shown. The campus buildings are color-coded in eight distinct categories. The distribution of buildings is for the most part in the southern area of campus, located on the higher elevations, and consist of academic, library, administrative, student life, and residential. The northern area of campus contains predominantly athletic facilities, play fields, and parking.

Academic buildings, colored red, are found predominantly in the southern area of the campus—along the south edge on College Street, the southeast area on Eighth Street, and in the campus core.

In the southwest area of campus are McReynolds and the Center for Teaching and Learning, each accessed by Drane Street. The McMillon and Clement buildings are located on College Street and are each accessed by Browning Drive. Sundquist Science Complex is located on the corner of College and Eighth streets and the Technology Building is located on the opposite corner on College. The Maynard Math and Computer Science Building is just north of the Technology Building on Eighth Street. The Margaret F. Trahern Building is situated just to the north of Sundquist and the Music/Mass Communication and Kimbrough buildings are just to the north of Trahern. West of Kimbrough are two academic buildings in the campus core, Marks and Harned halls. There is also an academic presence in the Woodward Library, the Dunn Center, and Memorial Health, which houses Honors. To the west of Trahern is the new Art and Design building that opened this year.

The Woodward Library is situated in the campus core and is colored purple.

Administrative use is shown in blue and is predominantly located near the campus core. The Browning Building houses executive offices, among other administrative functions, and is located on College Street, accessed by Browning Drive. Miller Hall is west of the campus core and is partially used by Auxiliary Services and Academic Administration. Ellington Building is a mixed-use facility with administrative functions and lies north and northwest of Browning. The Shasteen Building, found on the north edge of campus, is a University support facility which houses the University Police Department.

Student life buildings are green and most are located in or near the campus core. Situated in the campus core is the Morgan University Center, which serves as the student center and houses several dining venues, student gathering areas/lounges, and a convenience store. Also in the campus core is the Catherine Evans Harvill Building, which contains the campus bookstore and a dining venue. Memorial Health is a mixed-use facility with intramural recreational activities, ROTC, and the Honors Program.

The Student Health and Counseling Center is in the Ard Building across College Street. The Foy Fitness Center is a mixed-use facility and is found just outside the core on the north side of Marion Street.

Student residences are shown in yellow and are predominantly located in the southwestern area of campus, and four are located near the campus core. On the northwest edge of the campus, an area known as Emerald Hill contains married/family student apartments and is transitioning to upper class housing as well.

The northern area of campus contains predominantly athletic facilities, play fields, and parking, and the facilities are shown in brown. The Memorial Health Building in the campus core contains athletic uses as well as the Dunn Center and Foy Fitness Center north of Marion Street. Other athletic facilities include the Baseball Warehouse and associated field facilities directly north of the Baseball Warehouse. North of the Foy Fitness Center are the Governors Tennis Center, soccer and softball field facilities. West of Foy includes the pool and its facilities. East of Foy is the football venue, Fortera Stadium. The only dedicated intramural field is located south of the intersection of Marion Street and Drane Street.

Special facilities are shown in lavender and include Archwood, the University president’s residence, located on College Street, and the Sexton Building on the northeast corner of the campus, which houses a children’s daycare operation. The Pace Alumni Center is found on Emerald Hill to the northwest.

The campus’s central power plant is found in the central southern portion of campus. The Shasteen Building is located on the north edge of the campus and is used presently by the campus Police Department.

PEDESTRIAN CIRCULATION

Paved surfaces that are used exclusively for pedestrian walkways and outdoor gathering places are shown in solid red. Shared pedestrian and vehicular use is shown in purple.

The circle superimposed on the map represents a five-minute walking distance from the center to the outer edge, based on a walking rate of three miles per hour. The circle is centered on the Woodward Library entrance, the center of academic activity. Distances between buildings within the circle can be walked in 10 minutes or less. This measure is the usual break between two consecutive classes. Most University buildings are within ten minutes from the library. A second circle of the same diameter shown in gray demonstrates that most of the entire campus lies within it; this implies that the campus can be walked in about ten minutes from one end to the other.
Handicap-accessible entrances are marked by a wheelchair symbol. Emergency phone locations are denoted by a blue circle with dark blue cross marks.

For an institution with an enrollment target of 15,000 head count of students, the campus is remarkably compact. The path system connects most campus buildings. However, there are significant gaps between the core and the academic buildings on the east side—notably Sundquist, Trahern, Kimbrough, and Music/Mass Communications. There is a pedestrian/vehicular conflict on Browning Drive between McCord, Browning, Clement, and Claxton buildings, and the Morgan University Center, and these are shown with a black circle with green cross marks. It should also be noted that the sidewalks along Browning Drive have been narrowed with the installation of planters, making it even more difficult for pedestrians to navigate.

PEDESTRIAN CIRCULATION IMPROVEMENTS

Additional campus improvement and expansion will necessitate intentional design improvements on specific corridors to provide a safe, comfortable and appealing experience for all users. This is true within the established campus but, is also vitally important as APSU expands south of College Street toward Main Street. The design team identified four corridors that need to be addressed. Revising accommodations for pedestrians along these corridors will allow for the University’s continued growth.

IDENTIFIED CONCERNS & OPPORTUNITIES

The design team identified two minor corridors, internal to the campus, and two major through streets that will need to be addressed as the University grows. The identified minor corridors are Browning Drive and Henry Street. These streets are of minor value to vehicular traffic except for emergency vehicles and shipments to adjacent university buildings. The major through streets identified by the design team are Marion Street, which divides academic and athletic components of the campus, and College Street, represents a major barrier to pedestrians crossing from nearby apartments. Both major through streets carry significant vehicular traffic making well designed pedestrian facilities critical.

Browning Drive
Browning Drive loops behind the McCord, Browning and Clement buildings and in front of the Morgan University Center. Vehicular traffic along Browning Drive is problematic because of the heavy pedestrian traffic around the Morgan University Center and adjacent open space. Attempts have been made to separate students from vehicular traffic by installing bollards and planters. This approach reduces the sidewalk width, undermining the effectiveness of this solution. Pedestrian activity in this area will only increase as the University grows. With this in mind, a better solution is to close a portion of Browning Drive to vehicular traffic while maintaining access for emergency vehicles and necessary deliveries. The pedestrian section of Browning would be designated by gates complementary to other entryways on campus, and distinctive surfaces should be used to communicate the specific pedestrian nature of this street.
Henry Street
A similar situation was identified on a portion of Henry Street, from north of the Woodward Library to the intersection of Joseph Street. This street has a one-way traffic pattern with a small number of angled parking spaces. Adjacent buildings and parking areas are easily accessed from Joseph Street or 8th Street. Closing this portion of Henry Street creates an opportunity to fully incorporate the new Art and Design building, the Trahern building and the associated green space with the campus core, which is currently separated by Henry Street. Closing this block of Henry Street would not pose a critical impact to vehicular circulation or building loading docks.

Marion Street
Marion Street is a collector level street that connects the campus to North 2nd Street. Marion is an important street to the University and the City of Clarksville. The current cross section of Marion Street includes two travel lanes, on-street parking stalls and six-foot sidewalks on both sides of the corridor. As mentioned earlier, Marion Street is a primary route for those attending sporting events and is a “front door” for the athletic facilities. With this understanding, the design team recommends improving the design of Marion Street by widening the current pedestrian zone to a minimum width of ten feet from the Drane Street to the 8th Street intersections. Street trees and landscape beds should be added within the pedestrian zone to further separate the vehicular and pedestrian realms while improving aesthetics and visual interest.

College Street
Perhaps the most critical question to consider as the campus expands southward is, how will the University overcome the barrier of College Street in its current form? As the University grows, College Street will not only be a major city street but a campus street as well. The design team has created four solutions of varying complexity to approach this challenge at the intersection of College Street and University Avenue.

Improved at Grade Crossing
The least complex approach would be to improve the existing pedestrian crossings at the intersection of College and University and at 4th and College. Travel lanes for vehicular traffic would be narrowed to 10 feet in width to encourage slower travel speeds. Landscaped pedestrian refuges would provide a safe location to rest for individuals with mobility issues. Sidewalks and bicycle lanes improved at Grade Crossing will provide improved accommodations over the current design. Brick paving is utilized to communicate the unique nature of the space.

Elevated Square Crosswalk
This approach utilizes grade separated bridges to eliminate conflicts between pedestrians and vehicles. Bridges are accessed by towers containing stairwells and elevators for individuals with mobility issues. This design includes an entrance plaza containing the historic gate, which would be relocated to a prominent location in the historic quad.

Existing Paving
Brick Paving
The area of campus with the greatest potential of pedestrian/vehicular conflicts is the one-way section of Browning Drive to Henry Street through the core of campus. Browning Drive begins on the west side of McCord and winds between Browning and the Morgan University Center, an area of heavy pedestrian traffic. It continues its course through the campus core and wraps around two sides of the library before connecting to Henry Street and continuing north. This alignment is currently open to all vehicular traffic and serves relatively few parking spaces. This provides an incentive for students, visitors, and faculty and staff to make unnecessary trips to circle through the core of campus while searching for one of the rare empty parking spaces along Browning Drive. To increase safety and promote sustainability, the University should explore alternatives that direct motorists to areas of ample parking and discourage drivers from circling through the campus searching for a close place to park. By limiting traffic on Browning Drive to only emergency and service vehicles, the University can improve safety and encourage behaviors that conserve natural resources and energy. A similar phenomenon occurs because of the 24 parking spaces along Drane Street opposite the new quadrangle and student housing. Closing the section of Drane Street to the east of the new quadrangle would discourage cut-through traffic and reduce wasted vehicular trips. These solutions would promote the University’s goals for increased safety and environmental sustainability.

There are also limited areas for gathering and waiting at shuttle stops throughout campus. Shelters to protect students from inclement weather or to clearly identify a shuttle stop should be considered. To encourage greater use of the shuttle system, site furnishings and plaza spaces are needed throughout the campus.

To promote pedestrian activity and safety, reduce vehicular congestion, and achieve other environmental sustainability goals, the University should relocate most of the vehicular parking from the campus core to the periphery. This will create opportunities to redevelop surface parking lots for new campus buildings and useful and beautiful open spaces. This shift may affect the route and optimal frequency of the campus shuttle service as demand for the shuttle is likely to increase. Another related issue is the number of visitor parking spaces located in the campus core. The parking lot off Browning Drive offers few visitor parking spaces.
Outdoor gathering spaces on campus are shown in yellow, and these are areas where outdoor furnishings are provided and are enhanced with landscaping, making it conducive for people to gather. These areas are found going clockwise on the north side of Sundquist, the south of Kimbrough, a patio on the north side of Memorial, the pool area west of the Foy Fitness Center, the Greek housing courtyard on Robb Avenue, the north side of Castle Heights Residence Hall, and the center of Hand Village.

The newest Quad has been created with the construction of the new Art and Design Building. It is bordered by Trahern, Harvill, Henry Street, and the Library.

Three large under-utilized open spaces represent an opportunity to enhance the beauty, function, and sustainability of the campus. These spaces are the large open space on the south side of the Winfield Dunn Center along Marion Street, the wooded lot on the southwest corner of Marion Street and Henry Street and the open space south of Governors Lane between Miller Hall, Ellington Student Services Building, and Central Power Plant. The common characteristic of these open spaces is that they are used for stormwater management for detention and/or infiltration. The Winfield Dunn Center open space is currently used for some athletic practice activities, and this capacity could be enhanced by re-grading the site and engineering the soils to drain more quickly to allow for better utilization. These improvements will provide aesthetic improvements, as well as promote a feeling of safety. The open space between Miller, Ellington, and the Central Power Plant could be further enhanced to feel more like a formal quadrangle by planting canopy trees, standardizing light fixtures, and installing seating.

There are many areas on campus where above ground utility and mechanical systems are found in lawn areas with no landscaping to screen them from view. In several areas on campus there are clusters of utility or mechanical systems that could be placed in a single large bed. This would reduce maintenance by eliminating the need to trim around each of the utility structures and provide the opportunity to improve aesthetics by adding landscaping to screen them.

Overall the landscaping in and around parking areas is sparse or non-existent. Many parking lots have no landscape islands or beds along the perimeters of the lots. Best management practices recommend trees in parking lots to add visual clues as to where travel lanes are located and to reduce the heat-island effect of the pavement. In several lots the lack of plant beds around the perimeter of lots results in vehicles pulling onto the adjacent sidewalks and impacting pedestrian travel. Another common practice is the use of large areas of rip-rap around parking lots. This creates a very unpleasant aesthetic that could easily be corrected by using landscaping or rain gardens in these areas. While it is understood parking spaces are at a premium on campus, good landscaping and best management practices to improve the overall campus environment should perhaps not be sacrificed for a few dozen spaces. Implementation of best management practices for landscaping can also benefit on-going storm water improvements on campus as noted later in this master plan.

Athletic and recreational facilities are shown in lime green. These locations are predominantly located on the north side of campus, north of Marion Street. These areas include the baseball, softball, soccer fields, tennis courts, beach volleyball, and the football stadium. A multi-use field for band practice, among other uses, is located on the south lawn of the Dunn Center. An intramural play field is the only athletic piece found south of Marion Street, just north of new residential parking area. The lawn area south of the Dunn Center also needs improvement. The installation of irrigation and resodding the area would create a much better surface for scheduled activities and pick-up activities of students.

CLASSROOM USAGE

There are 92 classrooms at APSU, representing 13 percent of the total E&G space on campus. This category includes seminar rooms, classrooms, and auditoriums in which the Registrar schedules classes. These teaching spaces can be analyzed in different ways. The measures include how intensively they are being utilized, if they are the appropriate size for the scheduled class, and if the size is adequate for the number of students given the desired seating style.

How intensively a classroom is being utilized is in terms of usage hours per week. The Tennessee Higher Education Commission (THEC) Space Allocation Guideline target is 30 hours per week, and APSU’s usage hour average was close to the target at 26 hours per week during the average. This average include the classrooms in the new Art and Design Building. However, of the 14 buildings where classes are scheduled, 10 contained 37 classrooms with utilization rates above the target and 23 rooms that were close to the target—essentially, 60 of the 92 classrooms are close to or over the target utilization. The University is at capacity and any enrollment growth will exacerbate the problem. APSU needs additional classrooms.

The next measure is seat occupancy—the size of the class relative to the capacity of the classroom. Normative standards and the THEC target is 60 percent, compared to the overall APSU average of 64 percent. Small classrooms, those with 10 to 29 seats, have a very high seat occupancy ratio—over 80 percent—an indication of an insufficient number of rooms with that capacity or, perhaps an insufficient number of rooms with 30 to 39 seats.

The amount of space that a classroom should have is determined by the desired teaching style. For room capacities of up to 40 seats, tablet-arm chair seating requires 18 to 22 NASF per student and table-and-chair seating 22 to 35 NASF. The NASF per station for each type gradually decreases as the capacity increases. Most classroom sizes range between 20 and 39 seats, comprising 63 percent of the classroom inventory. The mean area per station at APSU was 23 NASF which is about midpoint of the combined ranges. Based on recent data relative to how students learn, there is a nationwide preference for the table-and-chair venue.

OFFICES

There are about 169,443 NASF of office space and 955 offices on the APSU campus.
Single-occupant offices make up 80 percent of the office space inventory, with an average size of 158 NASF. Two-occupant offices make up 8 percent of the inventory with an average of 125 NASF per station and an average office space size of 249 NASF, making up 12 percent of the total office NASF.

The APSU mean office space size is 177 NASF.

**PEER COMPARISONS**

Contrasting the amount of space at APSU to space at other state institutions formerly administered by the Tennessee Board of Regents (TBR) is a way to put the University’s facility resources into perspective. A comparison with five other TBR state universities is summarized in the table below based on the fall of 2016. The comparison is the amount of net assignable square feet in seven categories and dividing that number by the number of FTE students. The categories are classrooms, instructional labs, open labs, research labs, offices, library, and physical education.

Numbers that are highlighted in yellow are the lowest for that category. APSU has the lowest amount of space per student in classrooms, research labs, and the library. The University is slightly above the average in terms of instructional labs and highest in terms of physical education. Over all, Austin Peay has almost 12 NASF less space per student than the average of these five other Tennessee universities.

This system-wide data is from 2016. Adding the new Art and Design Building increases APSU’s total from 105.1 net square feet to 107.6 net square feet but then comparison is a mixture of 2016 and 2017 data. The system-wide data is unavailable for 2017 for the other universities. Many of them are planning on increasing their space inventory. ETSU has several buildings planned including space for a Center for the Arts, the stadium, an education center, and a campus data center. TSU is planning a major project including a hotel and conference center, residences, and research space. TTU is in the early stages of constructing a new science building. The University of Memphis is planning on constructing a recreation center and a new facility for the School of Music.

**PROJECTIONS**

Another measure to determine adequacy of space is to apply the THEC Space Allocation Guidelines to the campus space.
inventory using as an assumption the Strategic Plan’s enrollment target.

THEC modeled NASF requirement for the seven categories is an increase of 174,700 NASF. This increase translates into 291,200 gross square feet at a net-to-gross ratio of 60 percent which amounts to five new facilities at approximately 60,000 gross square feet each.

UNIVERSITY PROPERTY - POTENTIAL AND OPPORTUNISTIC LAND ACQUISITIONS

University-owned land is colored dark blue on this drawing and the University buildings are tan.

The primary boundaries of the campus are Farris Drive to the north and Eighth Street to the east. APSU also owns land north of Farris and on the east side of Eighth Street. Robb Avenue and North Second Street are the primary boundaries on the west, with University-owned parcels on the west side of Robb. College Street defines the south edge, which includes two parcels of land located south of College Street and the recent acquisition of a car dealership with land on both sides of College.

Another parcel is located on College Street to the east between Ford and Ninth streets. There are several University-owned contiguous parcels to the northwest—this area is referred to as Emerald Hill. The University’s main entrance is located on the south side of the campus on College Street.

Two roadways run through the campus—Marion Street runs east and west and Drane Street runs north and south. The core of the campus lies between College, Marion, Drane, and Eighth streets. Academic and support buildings are situated in the campus core.

The APSU Environmental Education Center (EEC), otherwise known as the APSU Farm, is located within Clarksville off Pickens Road. It is comprised of approximately 442 acres and supports the University’s academic programs. Fort Campbell is located about 10 miles north of the main campus.

The areas of land that the University should consider for acquisition in a long-range plan are shown in light green. Properties that have a high priority for acquisition are colored dark green and are located on the campus edges to the east, west, and south.

APSU has the fewest number of acres in the TBR University system. The dearth of land impacts current and future parking, play fields, open space, and building sites.

On October 12, 2017, the State Building Commission approved a gift from the City of Clarksville to Austin Peay State University. The City has abandoned three streets and gifted them to the campus for its use. This property is in the APSU 2013 Master Plan. The streets are Drane Extension, Hannum Street, and Henry Street.

ILLUSTRATIVE CAMPUS PLAN

Drawing 3.1 is the Illustrative Campus Plan as a rendered air view of the campus as it might look when all the Campus Plan projects are complete. The vision of the Austin Peay State University campus expresses all of the ideas discussed during the planning process and collected from the several on-campus interviews, meetings, and review sessions.

The Campus Plan concept is illustrated on this drawing. It shows buildings and landscapes that were conceived through the campus design process. The architects for each of the construction projects will determine the final building form and position on each site. The University will also influence the final physical campus solution of the Campus Plan, as projects may need to be redirected in response to changing academic and programmatic requirements as well as funding opportunities.

CLASSROOM UTILIZATION
APPENDIX

CLASSROOM UTILIZATION

The table on the following pages shows each of the 89 classrooms that APSU scheduled in the Fall 2016. The column headings include: the building in which the classroom is located; the Room number; FICM is a space taxonomy identifier that is used nationally in higher education and classrooms are identified as FICM 110; the department that is associated with the classroom—in general, “Registrar” signifies the room is a University resource; NASF (net assignable square feet) is the amount of area associated with the room; Stations is the number of seats in the room; NASF/Station is average amount of square footage per seat - this is used in comparing to standards; Scheduled Sections is the number of course sections that met in the room; Mean Section Size is the average number of students per section that was scheduled in the room; and Usage Hrs/Week is the total number of hours per week that the room was scheduled during the day. It is this last column that the data has been sorted from the highest number of hours to the lowest. Myra Harned Hall room 245 has the highest utilization at 40 hours per week, while Marks 107 has the lowest at 3 hours per week. The average utilization for all 89 classrooms is 27 hours. The THEC target is 30 hours per week, and 37 rooms were at the target of 30 hours or were greater than 30 hours.

Clearly, the University will need to add additional classrooms as enrollment grows.

(c) who, in the good faith judgment of the law enforcement officer issuing the Notice, poses an unreasonable threat to the health, safety, or welfare of a person(s) affiliated with the University while on University property; or

(d) who, in the good faith judgment of the law enforcement officer issuing the Notice, has engaged in conduct that substantially disrupts or interferes with University operations, events, or activities, or is likely to cause such a disruption or interference.

(3) A Notice must specify: the reason for the Notice; the geographical scope of the restriction; the duration of the restriction, which may be for an indefinite period; the potential consequences of a violation of the Notice; and the process for appealing the issuance of the Notice. The scope and duration of the restriction imposed must be proportional to the underlying misconduct. In appropriate circumstances, with respect to conduct on University property, a Notice also may prohibit a non-affiliated person from contacting or being within a certain distance from a person affiliated with the University.

(4) Appeals

(a) A non-affiliated person to whom a Notice has been issued may appeal the decision to the chief of police for the University’s campus/institute.

(b) A non-affiliated person must submit the appeal in writing. The written appeal must be received by the chief of police within twenty (20) calendar days of the date on which the Notice was provided to the non-affiliated person. Any Notice mailed (or e-mailed) to a non-affiliated person shall be deemed to have been provided on the date on which it was mailed (or e-mailed). The written appeal should include the non-affiliated person’s reason for being on University property, the non-affiliated person’s future need to be on University property, and any other information the non-affiliated person wishes the University official who issued the Notice to consider.

(c) Upon receipt of a written appeal, the chief of police will consult as needed with other University officials to verify the non-affiliated person’s need for access to University property, to gather additional information or advice, or to review the impact that granting the appeal may have on persons affiliated with the University.

(d) Within twenty (20) calendar days of the receipt of an appeal submitted in accordance with this Chapter, the chief of police will sustain, rescind or modify the Notice in a written decision that will be mailed to the address provided by the non-affiliated person. The decision of the chief of police is final and not appealable within the University.

(e) The restrictions set forth in the Notice will remain in effect while an appeal of the Notice is pending.

(f) If the chief of police issued the Notice, then the non-affiliated person may appeal to the supervisor of the chief of police following the procedures set forth in Section .05(4)(a)(e).

(5) The law enforcement officer who issued the Notice (or, if the Notice is appealed, the chief of police), with the approval of the Chief of Police, may rescind or modify the Notice at any time. Notification of any such rescission or modification shall be provided to the non-affiliated person to whom the Notice was issued.
(6) Failure to comply with a Notice may result in issuance of a citation or an arrest for trespassing pursuant to applicable state criminal trespass statutes or local ordinances. Nothing in this paragraph .05 shall limit or be construed to limit the exercise of the statutory authority of sworn law enforcement officers of a campus police department to arrest in accordance with the laws of this state or local ordinances. Nor shall anything in this paragraph .05 limit or be construed to limit the authority of sworn law enforcement officers of a campus police department to issue an oral request instructing a person to leave and/or not enter all or part of University property.

Subject: Approval of Classifying Students In-State and Out-of-State Rule

Action Recommended: Approval by Roll Call Vote

Background Information:

State entities are required to promulgate rules and regulations when the subject of those rules and regulations affects the rights of third parties. Approval of Classifying Students In-State and Out-of-State Rule falls into this category. These rules mirror the University’s Policy on the classification of in-state and out-of-state students. The rules were reviewed by APSU’s Office of Legal Affairs. The rule also requires approval by the Attorney General, Secretary of State, and is subject to final approval by the Government Operations Committee of the Tennessee General Assembly. The promulgation process is enumerated in the Tennessee Uniform Procedures Act at T.C.A. § 4-5-201, et. seq.

Proposed Implementation Date: At the conclusion of the rule promulgation process.

Item Details: See attachment.

Such person need not enroll in summer sessions or other such inter-sessions beyond the normal academic year in order that his or her

(2) An unemancipated person whose parent is not domiciled in this State but is a member of the armed forces and stationed at Fort Campbell pursuant to military orders shall be classified out-of-state, but shall not be required to pay out-of-state tuition. Such a person, while in continuous attendance toward the degree for which he or she is currently enrolled, shall not be required to pay out-of-state tuition if his or her parent thereafter is transferred on military orders.

(3) A person whose domicile is in a county of another state lying immediately adjacent to Montgomery County, or whose place of residence is within thirty (30) miles of Austin Peay State University shall be classified out-of-state but shall not be required to pay out-of-state tuition at Austin Peay State University.

(a) The waiver of out-of-state tuition granted to a border county student at an admitting institution will follow the student only from a community college to the University if the student transfers from the community college after successfully completing an associate's degree unless this condition is waived by the community college as being in the student's best interest; provided, in any case the student must complete the general education requirement at the TBR community college.

(5) Part-time students who are not domiciled in this State but who are employed full-time in the State, or who are stationed at Fort Campbell pursuant to military orders, shall be classified out-of-state but shall not be required to pay out-of-state tuition. This shall apply to part-time students who are employed in the State by more than one employer, resulting in the equivalent of full-time employment.

(6) Military personnel and their spouses stationed in the State of Tennessee who would be classified out-of-state in accordance with other provisions of these regulations will be classified out-of-state but shall not be required to pay out-of-state tuition. This provision shall not apply to military personnel and their spouses who are stationed in this State primarily for educational purposes.

(7) Dependent children who qualify and are selected to receive a scholarship because their parent is a law enforcement officer, fireman, or emergency medical service technician who was killed or totally and permanently disabled while performing duties within the scope of their employment shall not be required to pay out-of-state tuition.

(8) Active-duty military personnel who begin working on a college degree at a the University while stationed in Tennessee or at Fort Campbell, Kentucky, and who are transferred or deployed prior to completing their degrees, can continue to completion of the degrees at the University without being required to pay out-of-state tuition, as long as he/she completes at least one (1) course for credit each twelve (12) month period after the transfer or deployment. Exceptions
may be made in cases where the service member is deployed to an area of armed conflict for periods exceeding twelve (12) months.

9. Students who participate in a study abroad program, when the course/courses in the study abroad program is/are the only course/courses for which the student is registered during that term, shall not be required to pay out-of-state tuition.

10. Students who are awarded tuition waiver scholarships for participation in bona fide campus performance-based programs, according to established guidelines, shall not be required to pay out-of-state tuition.

11. A veteran enrolled at the University shall not be required to pay out-of-state tuition or any out-of-state fee, if the veteran:

   (a) Has not been dishonorably discharged from a branch of the United States armed forces or the national guard;

   (b) Is eligible for Post-9/11 GI Bill benefits or Montgomery GI Bill benefits; and

   (c) Enrolls in the University, after satisfying all admission requirements, within three (3) years from the date of discharge as reflected on the veteran's certificate of release or discharge from active duty, Form DD 214, or an equivalent document.

1. To continue to qualify for in-state tuition and fees, a veteran shall:

   (i) Maintain continuous enrollment as defined by the University; and

   (ii) Demonstrate objective evidence of established residency in this state by presenting at least two (2) of the following:

          (I) Proof of voter registration in the state;

          (II) A Tennessee driver license;

          (III) A Tennessee motor vehicle registration;

          (IV) Proof of established employment in the state; or

          (V) Other documentation clearly evidencing domicile or residence in the state, as determined by the Tennessee Higher Education Commission.

0240-05-05-05 Presumption. Unless the contrary appears from clear and convincing evidence, it shall be presumed that an emancipated person does not acquire domicile in this State while enrolled as a full-time student at the University, as such status is defined by APSU.

0240-05-05-06 Evidence to Consider for Establishment of Domicile. If a person asserts that he or she has established domicile in this State he or she has the burden of proving that he or she has done so. Such a person is entitled to provide to APSU by which he/she seeks to be classified or reclassified in-state, any and all evidence which he or she believes will sustain his or her burden of proof. APSU will consider any and all evidence provided to it concerning such claim of domicile but will not treat any particular type or item of such evidence as conclusive evidence that domicile has or has not been established.

0240-05-05-07 Appeal. Initially, the Office of Admissions clerk is responsible for classifying applicants for admission or readmission as either "in-state" or "out-of-state." A decision by the Office of Admission clerk may be appealed in writing to the residency classification officer in the Office of Admissions on an Application for Residency Classification form.

Students currently/continually enrolled may appeal in writing to the residency classification officer in the Office of the Registrar on an Application for Residency Classification form. An appeal of the decision made by either office may be taken to the Residency Appeals Committee. Appointments for students to appear before the committee and copies of written appeals for committee members will be made by the Office of the Registrar. Appeals from students who appear will be heard before the committee. Appeal applications made in abstenitia will be considered by the committee after consideration of in-person appeal appointments. Unless additional guests are requested in advance and approved by the committee chair, only the student may appear before the committee. Students may bring additional material to support their appeal at the committee meeting. The committee shall include five faculty representatives (including the chair), two staff representatives, two student representatives, as well as up to three ex officio members currently made up of the Coordinator of Graduate Admissions, the Director of Admissions, and the Registrar. The committee chair will prepare a record of the student appeals including the name of the student, the date of the committee meeting, the committee members present, name(s) of any other guest(s) and a statement of the resulting decision of the committee. A copy of this record will be kept in the student’s permanent file. The appealing student will be contacted by the Office of the Registrar and informed of the committee’s recommendation. A decision by the Residency Appeals Committee may be appealed in writing to the associate provost for enrollment management and academic support. All appeals must be received within five (5) class days of receipt by the student of the committee's decision.

0240-05-05-08 Effective Date for Reclassification. If a student classified out-of-state applies for in-state classification and subsequently is classified thusly, his or her in-state classification shall be effective as of the date on which reclassification was sought. However, out-of-state tuition will be charged for any term or semester during which reclassification is sought and obtained unless application for reclassification is made on or before the last day of registration prior to classes.

Subject: Institutional Refunds

Action Recommended: Approval by Roll Call Vote

Background Information:

State entities are required to promulgate rules and regulations when the subject of those rules and regulations affects the rights of third parties. Institutional Refunds Rule falls into this category. The rules were reviewed by APSU's Department of Finance and Administration. The rule also requires approval by the Attorney General, Secretary of State, and is subject to final approval by the Government Operations Committee of the Tennessee General Assembly. The promulgation process is enumerated in the Tennessee Uniform Procedures Act at T.C.A. § 4-5-201, et. seq.

Proposed Implementation Date: At the conclusion of the rule promulgation process.

Item Details: See attachment.
0240-05-04-.01 Purpose. The purpose of this rule is to provide procedures by which Austin Peay State University (APSU) refunds unearned fees and charges to students. The federal statutory requirements for institutional refunds are found in Section 484B of the "Higher Education Act of 1965", as amended. Regulatory refund requirements are contained in 34 C.F.R. 668.22. This rule is designated to meet the federal requirement for state law governance of refunds.

Authority: T.C.A. §49-8-203.

0240-05-04-.02 Applicability. The refund process applies when a student does not register for the period of enrollment for which he or she was charged; or, withdraws, drops out, is expelled from the institution or otherwise fails to complete the program on or after his or her first day of class of the period of enrollment for which he or she was charged. Refunds of all fees and charges must be in accordance with this rule except where required by federal law or regulation to be otherwise.

Authority: T.C.A. §49-8-203.

0240-05-04-.03 Refunds.

(1) Refunds consist of any unearned tuition, fees, room and board, and any other charges assessed or expended, but unearned or unused. Unless otherwise specified, or required by federal law, refund calculations shall be subject to the same refund policy as maintenance fees.

(2) Tuition-Fee Refunds.

(a) Refunds are 100% for courses canceled by APSU.

(b) Changes in courses involving the adding and dropping of equal numbers of Student Credit Hours for the same term at the same time require no refund or assessment of additional maintenance fees. The change of course fee would be applicable.

(c) The basic refund for withdrawals or drops during regular terms (fall and spring) is 75% from the first day of classes through the fourteenth calendar day of classes and then reduced to 25% for a period of time which extends 25% of the length of the term. There is no refund after the 25% period ends.

(d) For summer sessions and other short terms, the 75% refund period and the 25% refund period will extend a length of time which is the same proportion of the term as the 75% and 25% periods are of the regular terms.
All refund periods will be rounded to whole days and the date on which each refund period ends will be included in publications. In calculating the 75% period for other than the fall and spring and in calculating the 25% length of term in all cases, the number of calendar days during the term will be considered. When the calculation produces a fractional day, rounding will be up or down to the nearest whole day.

A 100% refund is provided on behalf of a student whose death occurs during the term. Any indebtedness should be offset against the refund.

A 100% refund will be provided for students who enroll under an advance registration system but who drops a course or courses prior to the beginning of the first day of class.

A 100% refund will be provided to students who are compelled by APSU to withdraw when it is determined that through APSU error they were academically ineligible for enrollment or were not properly admitted to enroll for the course(s) being dropped. An appropriate official must certify in writing that this provision is applicable in each case.

When courses are included in a regular term’s registration process for administrative convenience, but the course does not begin until later in the term, the 75% and 25% refunds will be based on the particular course’s beginning and ending dates. This provision does not apply to classes during the fall or spring terms which may meet only once per week. Those courses will follow the same refund dates as other regular courses for the term.

The refund percentage is applied to the difference between the per hour rate (or maximum) for the number of credit hours immediately before the drop or withdrawal and the number immediately afterward.

The refund provision for out-of-state tuition is the same as that for tuition. A 75% refund is made for the same period and a 25% refund is made for the same time period. When 100% of maintenance fees are refunded, 100% of out-of-state tuition also is refunded.

Calculation procedures are the same as those specified for tuition.

Debt service fees will be subject to the same refund policy as maintenance fees.

Refunds of residence hall rent after registration will be prorated on a weekly calendar basis when the student is forced to withdraw from the residence hall:

1. Because of personal medical reasons confirmed in writing by a licensed physician; or,
2. At the request of the institution for other than disciplinary reasons.

Full refund will be made in the case of the death of the student.

Withdrawals for other reasons will be subject to the same 75% and 25% amounts and time periods as maintenance fees.

No refunds will be made other than under the above conditions.
(e) Residence hall reservations and breakage deposits will be refunded in full:

1. If the institution is notified by a specific date which it establishes, but which may not be later than fourteen (14) calendar days prior to the first official day of registration;

2. If the student is prevented from entering APSU campus because of medical reasons confirmed in writing by a licensed physician.

3. If residence hall space is not available; or

4. In the case of the death of the student.

(6) Meal Plan Refunds. Meal plans may be prorated based on cancellation and refund eligibility.

(7) Refunds for Active Members of the Military or National Guard. Pursuant to T.C.A. §§ 49-7-2301 and 49-7-2302, students called to active military or National Guard service during the semester are entitled to a 100% adjustment or credit of mandatory fees. Housing and meal ticket charges may be prorated based on usage.
