

## Policy on Drug/Alcohol Use During Rehearsals/Shows

It is the policy of the Dept. of Theatre and Dance that no altering substances (recreational drugs/alcohol) be imbibed before or during a rehearsal or performance. This means between shows on a two-show day as well. You are considered a university representative between shows and on university time. If it is discovered that this policy has been violated, the student may be removed from the show (at the discretion of the director or faculty member present), placed on immediate probation, removed from the BFA programs, and removed from the casting pool.
